#### TH - Thresholds

TH-001-MO	Mohawk Group
TH-001-SH	Shaw Contract
TH-002-JO	Resilient Threshold Tarkett / Johnsonite, a Tarkett Group Company

#### TS - Transitions Strips

TS-002-SCH	Finishing edge-protection profile, metal tile trim. Schluter Systems
------------	---

# PREAMBLE

## Instruction For Use of Documentation

The total required information provided to design and build a StudioRes by Marriott is contained in the criteria documents identified below which relay standardized public space, guestrooms, guestroom corridors, and back of house and building site + exterior. **UNKNOWN** is the decor package for the Public Space and Guestrooms.

Comprehensive Criteria Documents for StudioRes by Marriott are:

1. Design Standards
2. Design Guideline Drawings
3. Heart of House Guideline
4. Specifications as indicated below:
  - A. Building Product Manual (BPM)
    - Volume 1 - Building Site + Exterior
    - Volume 2 - Public Space
    - Volume 3 - Guestrooms
    - Volume 4 - Guest Laundry Equipment
  - B. Exterior Signage Specifications
  - C. Interior Signage Specifications
  - D. Interior Design Specification Manual

Alternate Sources of Information:

1. Change Bulletins
2. Additional Tools

Description Follows:

1. Design Standards provide a written macro view of the overall requirements for a StudioRes by Marriott.
2. The Design Guideline Drawings - provide more specific design direction via drawings to supplement the Design Standards.
3. The Interior Décor Spec Manual lists items required that are generally referred to as Furniture, Fixture, & Equipment or FF&E items. These items and the accepted suppliers listed, have been contracted by Marriott and can be supplied through Marriott's procurement division.
4. The Building Product Manual (BPM) includes the "guest-facing" building products (typically installed and supplied by the General Contractor) and all finishes required for the interior and exterior of the building. Marriott requires that all building products and finishes be provided by acceptable manufacturers. This document must be used in conjunction with the drawings for the contractor supplied items as specific dimensions and criteria are referenced in both documents. Because of the high quality of design expected for a StudioRes by Marriott, Marriott has specified acceptable suppliers who have worked closely with Marriott on the initial StudioRes design. All of these documents are integral elements of the complete design and construction information. The project architect is responsible for incorporating all components of the criteria documents in the development of any StudioRes by Marriott project.

## Use of Drawings

Building Product Manual (BPM) mark numbers and Interior Décor Specification Manual x-ref numbers are shown on the Design Guideline Drawings as a base number only. Refer to the BPM and Interior Decor Specification Manual for mark numbers and x-ref numbers plus a suffix for product and FFE alternates and additional acceptable manufacturers.

\* In the BPM acceptable manufacturers of same material/product are indicated by a suffix of "XX", the abbreviation of the manufacturer's name. (i.e. PL-101-MO for MOEN or PL-101-KO for Kohler). If there are multiple manufacturers, and the item looks very similar, and its only difference is a matter of style, then it is considered a variation of manufacturer and not an alternate and would receive the mfr. suffix.

\* In the BPM alternate materials/products/designs are indicated by a suffix of "A1", "A2", "A3", etc. indicating "alternate", following the base number (i.e. PL-101-A1). When only one manufacturer is listed, no manufacturer initials are indicated before the alternate suffix.

## General Compliance Requirements

The Owner's/ Franchisee's Consulting Design Professional shall be responsible for verifying and complying with all applicable laws, covenants, codes, ordinances, rules, regulations, restrictions, etc. The Design Professional shall pay close attention to the requirements of the federal accessibility law, Americans with Disability Act (ADA), local and state accessibility regulations, and the applicable fire, life safety requirements. It is also the responsibility of each hotel owner to ensure that all products have been adjusted in dimension, quantity and hand suit the specific site conditions.

## GENERAL NOTES

1. All images, photographs, renderings of specified items contained in this specification package area for general design intent and reference only.
2. Refer to the preamble for terms, conditions, abbreviations, definitions, responsibilities, and general guidelines for all specified items.
3. Refer to drawings for exact locations and/or mounting heights of furniture, fixtures, and equipment. In the event of a discrepancy between drawings and specifications, please contact Marriott International immediately for written clarification.
4. Submittal of shop drawings & finish samples to Marriott International for review and written approval is required for any item supplied by a vendor other than the specified source.
5. Design Documentation firm to verify that all flammability requirements are met for property location. The requirements noted within this specification are general and local flammability may be more stringent.
6. Install all products and finishes per manufacturer's recommendations.
7. Final quantity of items to be based on final plans, room quantity, and final matrix.

## Plumbing Fixture and Residential Appliances - General Notes

1. All plumbing fixtures and residential appliances to be of contract quality and suitable for commercial use.
2. Site measurements required.

## ABBREVIATIONS

### General Schedule Abbreviations:

ADA	Americans with Disabilities Act
AFF	Above Finish Floor
ASTM	American Society of Testing Materials
AWI	American Woodworking Institute
CEF	Corridors, Elevators, and Foyers
CF/CI	Contractor Furnished/ Contractor Installed
COM	Customer's Own Material
GC	General Contractor
GR	Guest Room
GRB	Guest Room Bath
LY	Lineal Yard
MF/MI	Manufacturer Furnished/ Manufacturer Installed
N/A	Not Applicable

NFPA	National Fire Protection Association
NY	Narrow Yards
OF/CI	Owner Furnished/ Contractor Installed
OF/MI	Owner Furnished/ Manufacturer Installed
OF/OI	Owner Furnished/ Owner Installed
RFP	Request for Proposal
SF	Square Feet
SY	Square Yard
UL	Underwriters Laboratory

## A. Toilet Accessory Abbreviations:

For your use in utilizing the Toilet Accessories within the Building Product Manuals, the following information is supplied:

1. The Assembly is the type of restroom or bathroom. The Assembly is not recognized by a number.
2. Within each assembly, mark numbers are assigned to each component within the assembly. The component contains 2 characters or prefix 'TA' for Toilet Accessory Commodity. The first character of the 3 character suffix categorizes each toilet accessory commodity component, then is numbered sequentially."

- 100 – Grab Bars
- 200 – Toilet Tissue / Facial Tissue
- 300 – Glass Shelf / Iron Board Caddy
- 400 – Towel Bar / Towel Ring / Robe Hook
- 500 – Soap Dish / Shampoo Dispenser / Shower Accessory Ledge / Shower Foot Rest
- 600 – Shower Curtain Rod / Glass Shower (components)
- 700 – Shower Seat / Tub Seat
- 800 – Public Restroom (Feminine Napkin Dispenser / Paper Towel Dispenser / Receptacle / Soap Dispenser / Seat Cover)
- 900 – Miscellaneous

## B. Plumbing Fixture Abbreviations:

For your use in utilizing the Plumbing Fixtures within the Building Product Manuals, the following information is supplied:

The Assembly No. contains 3 characters or prefix to define the type of assembly. The 2 character suffix is numerically sequential. Example TUB-01.

- TUB - Tub
- WHL - Whirlpool
- SHR - Shower
- SNK - Sink
- SVS - Service Sink
- WCL - Water Closet
- URN - Urinal
- WCR - Water Cooler" "EWS - Eye Wash
- MOP - Mop Sink
- CLO - Cleanout
- FLD - Floor Drain
- FSK - Floor Sink
- LIT - Lint Interceptor
- HYD - Hydrant
- RDR - Roof Drain

Mark numbers are assigned to each component within the assembly. The component contains 2 characters or prefix 'PL' for Plumbing Commodity.

The first character of the 3 character suffix categorizes each plumbing commodity component, then is numbered sequentially. Example PL-101, PL-102, etc.

- 100 – Sinks & Mop Sinks
- 200 – Faucets
- 300 – Toilets / Urinal / Water Cooler
- 400 – Shower Heads
- 500 – Shower Diverters
- 600 – Shower Surrounds / Shower Pans / Base / Tub
- 700 – Shower Doors
- 800 – Fittings
- 900 – Miscellaneous (Floor Drains, Clean Outs)

## C. Door Hardware Abbreviations:

For your use in utilizing the Door Hardware within the Building Product Manuals, the following information is supplied:

The Assembly No. or Door Hardware Type No. contains 1 character or prefix "T". The 2 character suffix is numerically sequential. Example T-01.

Within each assembly, mark numbers are assigned to each component within the assembly. The component contains 2 characters or prefix 'DH' for Door Hardware Commodity. The 3 character suffix is numbered sequentially. Example DH-001, DH-002, etc.

### BPM (Building Product Manual) Number Nomenclature

2x4 Recessed Troffer

Type: Linear Box Light Fixture

#### DIMENSIONS

Width: 23-3/4"

Length: 47-3/4"

Height: 1-1/4"

#### MISCELLANEOUS

Lead Time: In stock to 4 weeks

Warranty: 5 years

#### CUSTOM FIELDS

Delivered Lumens (LED) or Mean Lumens (Non-LED): 4799

Dimming Type: 0 - 10V

Finish: White

Fixture Input (Max. Watts): 34.9 W

Lamp Configuration: NA

Lamp CRI: 85+

Lamp Kelvin: 3500K

Lamp Life/Fixture Life: 60,000 hrs

Lamp Model #: NA

Lamp Quantity: NA

Lamp Type: LED

Lens/Shade: Acrylic Prismatic Frosted Lens

Mount: Recessed ACT

On Dimming System: No

Reflector: N/A

Trim: White

Voltage: 120 / 277

T-Grid LED  
troffer 2x4

3200, 3800, 4300, 4800, 5400,  
or 7400 lumens

Project: \_\_\_\_\_  
 Location: \_\_\_\_\_  
 Cat.No: \_\_\_\_\_  
 Type: \_\_\_\_\_  
 Lamps: \_\_\_\_\_ Qty: \_\_\_\_\_  
 Notes: Lumens called out to  
 match existing spec  
 (5200lm)

Day-Brite / CFI T-Grid LED troffer is an energy efficient low profile luminaire offering excellent performance for general lighting applications such as offices, schools, healthcare, or retail. Featuring a frosted prismatic lens to enhance visual comfort, the T-Grid LED Troffer utilizes highly reliable and efficient Philips LED platform boards and dimmable driver, enabling market leading efficiency in its category.

### Footnotes

- 1 SDIM not available with 74L lumen option
- 2 Not available for 74L-347V
- 3 1100 nominal lumens delivered in DC mode

### Accessories (order separately)

- FMA24 – 2'x4' "F" mounting frame for NEMA "F" mounting
- FKTG824 – Flange conversion kit, 2'x4'

# 2TG T-Grid LED troffer 2x4

3200, 3800, 4300, 4800, 5400, or 7400 lumens

## Application

- High efficacy long life solid state lighting platform.
- General lighting distribution is excellent for ambient lighting.
- High CRI source provides excellent color rendering.
- LEDs are an excellent source for use with controls since frequent switching does not affect the life of the light source.

## Construction/finish

- A quality low-profile troffer with specification features for NEMA "G" grid, NEMA "NFG" narrow face grid, NEMA "GR" grid regressed, or NEMA "F" flange ceiling types.
- 3" nominal housing depth, 3-3/16" maximum depth.
- Smooth rolled edges on all four sides for easy handling.
- Die-formed one piece housing includes stiffening embosses and provides increased rigidity.
- Housing is multi-stage phosphate treated for maximum corrosion resistance and finish coat is high reflectance baked white enamel.
- Integral baffling system to prevent light leaks.

- 2 sets of integral grid clips (wraparound and fold-out) for maximum mounting flexibility.
- Integral wire hanger holes for independent wire suspension.
- Embosses with holes provided in housing end for screwing to T-bar if desired.
- 7/8" K.O.'s provided in each end cap for through wiring.
- Factory installed access plate in housing top includes 7/8" hole with rolled edge and 7/8" K.O.
- Carton includes integral carrying handle for easy handling.

## Electrical

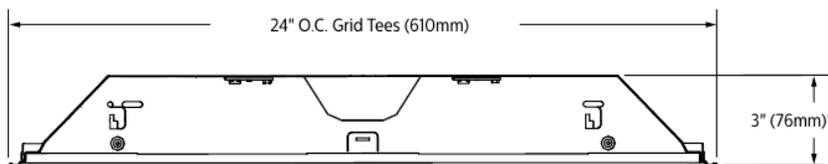

- Standard 0-10V dimming.
- Driver and LED boards are accessible from below. LED boards are individually replaceable if required.
- Five-year luminaire limited warranty including LED boards and driver. Visit [www.philips.com/warranties](http://www.philips.com/warranties) for complete warranty information.
- High efficiency LEDs have 50,000 hour rated life (defined by testing at 70% lumen maintenance (L70)), based on 25°C ambient operating temperature.

- cETLus listed to UL and CSA standards, suitable for damp location.
- T-Grid LED luminaires are DesignLights Consortium® qualified. Please see the DLC QPL list for exact catalog numbers (<http://www.designlights.org/QPL>).
- Many luminaire components, such as reflectors, refractors, lenses, sockets, lampholders, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility.

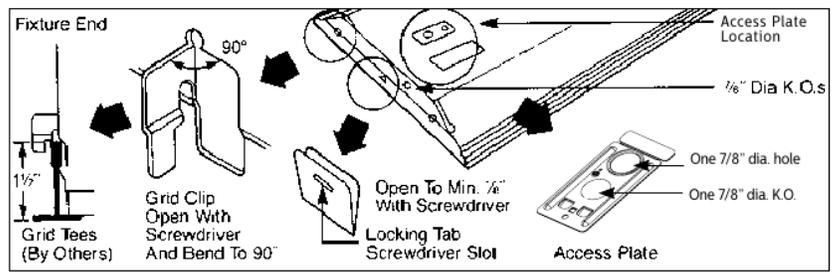

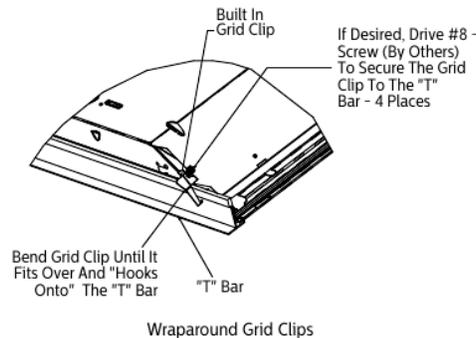

## Enclosure

- Full "C" channel door frames for improved lens support and reduced shipping damage.
- Flat steel door frame features smooth rolled edges inside and outside.
- All door frames have mitered corners.
- All door frames use T-hinges and can be hinged and latched from either side.
- Opposable spring loaded latches are standard for easy operation and consistent retention.

## Dimensions

\*EMLED option adds 1-3/4" to overall height

Office Phone: (678) 447-5208

### Attributes

---

Surface Mount 6" Downlight Matte White

Type: Downlight

#### DIMENSIONS

Width: 7-5/8" Diameter  
Height: 15/16" H

#### MATERIAL / FINISH

Finish: WH - Matte White

#### PERFORMANCE

Delivered Lumens (LED) or Mean Lumens (Non-LED): 1200 Lumens  
Mount: Surface Mount  
Lamp Type: LED  
Lens/Shade: Lens - Diffuse Clear  
Lamp CRI: 90 CRI

#### MISCELLANEOUS

Model: SMD6R12009SWH  
Voltage: 120-277V  
On Dimming System: No  
Lamp Kelvin: 3000K

#### MISCELLANEOUS

Lead Time: Stock to 6 weeks  
Warranty: 5 year Limited Warranty

#### CUSTOM FIELDS

Dimming Type: 0-10V dimming down to 5%

# HALO

## SMD6 Series

6" Round and Square Surface Mount Downlight  
SMD6R & SMD6S

**Typical Applications**  
Residential

### Interactive Menu

- Order Information [page 2](#)
- Product Specifications [page 4](#)
- Photometric Data [page 5](#)
- Product Warranty

### Top Product Features

- Ultra-low profile surface luminaire with wide distribution
- Ceiling or wall mounting in compatible junction boxes
- 600 & 1200 lumen; 2700K, 3000K, 3500K, 4000K or 5000K field selectable CCT; 90 CRI
- 120V only and Universal Voltage 120V – 277V options
- Dimmable with 120V dimmers

### Product Certification

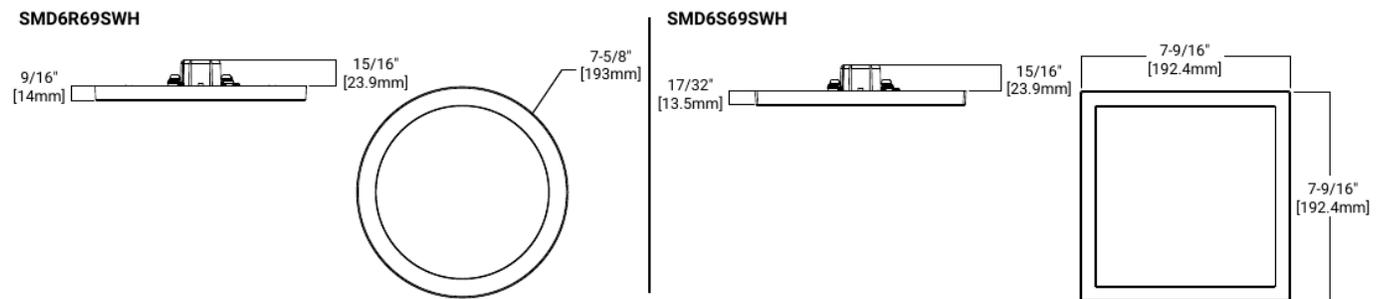

Refer to ENERGY STAR® Certified Products List.  
Can be used to comply with California Title 24 High Efficacy requirements.  
Certified to California Appliance Efficiency Database under JAB.

## Dimensional and Mounting Details (continued)

SMD6R129SWH  
SMD6R129SWHE

SMD6S129SWH  
SMD6S129SWHE

**Note:** Ensure junction box (provided by others) internal dimension supports driver dimension.

## Ordering Information

SAMPLE NUMBER: **SMD6R69SWH** = 6" Round Surface Mount Downlight, 600 lumen, 90CRI, Selectable CCT, White, 120V

**Junction Box Installation:** Order junction box separately, as supplied by others, to complete installation.

**Recessed Installation:** Order HALO recessed housing and SMD6ACCKIT separately to complete installation.

Models	Lumens	CRI/CCT	Finish	Voltage
SMD6R = 6" Round Surface Mount Downlight SMD6S = 6" Square Surface Mount Downlight	6 = 600 lumen series (120V only) 12 = 1200 lumen series <sup>(1)</sup>	9S = 90CRI, 2700K - 5000K Field Selectable CCT	WH = Matte White	Blank = 120V standard E = UNV Universal 120-277V <sup>(2)</sup>
<b>Notes</b>	<b>Notes</b> (1) 1200 lumen series requires use of 4" square junction box or similar to support driver.	<b>Notes</b>	<b>Notes</b>	<b>Notes</b> (2) UNV voltage configuration is offered only in the 1200 lumen series

## JUNCTION BOX COMPATIBILITY

\*Note: SMD 1200 lumen 120V configuration is only compatible with junction boxes 4" x 2-1/8" deep. Square junction box is required for 1200 lumen version.

**TP316\***  
for non-metallic cable  
4" x 4" x 2-1/8"  
(102mm x 102mm x 54mm)

**TP317\***  
for metal clad cable  
4" x 4" x 2-1/8"  
(102mm x 102mm x 54mm)

**4" octagon light fixture/fan steel box\***  
4" x 4" x 2-1/8"  
(102mm x 102mm x 54mm)

**4" octagon steel box**  
4" x 4" x 1-1/2"  
(102mm x 102mm x 38mm)

**4" square deep steel box\***  
4" x 4" x 2-1/8"  
(102mm x 102mm x 54mm)

**4" square standard steel box**  
4" x 4" x 1-1/2"  
(102mm x 102mm x 38mm)

**4" round new work non-metallic light fixture/fan box**  
4" diameter x 2-3/16"  
(102mm x 56mm)

**3-1/2" round new work non-metallic ceiling box**  
3-1/2" diameter x 2-3/4"  
(89mm x 70mm)

**4" round surface mount box**  
4" diameter x 1-1/2"  
(102mm x 38mm)  
Requires SLD6RAD adapter

**4" round new work non-metallic box with hanger bar assembly**  
4" diameter x 2-3/16" (102mm x 56mm)

This is a representative list of compatible junction boxes only. Information contained in this literature about other manufacturers' products is from published information made available by the manufacturer and is deemed to be reliable, but has not been verified. Cooper Lighting Solutions makes no specific recommendation on product selection and there are no warranties of performance or compatibility implied. Installer must determine that site conditions are suitable to allow proper installation of the mounting bracket in the box.

## Product Specifications

### Housing

- Non-electrically conductive polycarbonate frame.
- High impact diffuse polystyrene lens provides shielding to the light guide with no pixilation
- Stamped aluminum housing provides thermal cooling achieving L70 at 50,000 hours in IC and non-IC applications

### Gaskets

- Closed cell gasket achieves restrictive airflow and wet location requirements without additional caulking

### Optics

- Precision acrylic light guide organizes source flux into wide distribution with 1.2 – 1.4 spacing criteria useful for general area illumination

### LED

- Mid power LED array provide a uniform source with high efficiency and long life
- Available in 90 CRI minimum, R9 greater than 50 and color accuracy within 3 SDCM provide color accuracy and uniformity

### Driver

#### SMD 120V

- Integral 120V 50/60Hz constant current driver provides noise free operation
- Continuous, flicker-free dimming from 100% to 5% with select leading or trailing edge 120V phase cut dimmers
- Dimming to 5% is best assured using dimmers with low end trim adjustment. Consult dimmer manufacturer for compatibility and conditions of use. (Note some dimmers require a neutral in the wallbox.)
- Inline electrical quick connect and E26 adapter (provided) provides mains connections

#### SMD 120-277V

- Integrated 120-277V 60Hz constant current driver provides noise free operation
- SMD Universal Voltage (120-277V) configurations are recommended for use with compatible 0-10V DC
- low voltage dimmers only

### Mounting/Retention

- Adjustable spider plate allows for quick installation into both junction boxes and recessed housings
- Torsion springs and friction blades included

### Electrical Junction Box Mounting

- The SMD may be used in compatible electrical junction boxes in direct contact with insulation including spray foam insulation
- Suitable for installation in many 3-1/2" and 4" square, octagon, and round electrical junction boxes  
**Note:** SMD120-277V UNV is only compatible with junction boxes that provide minimum depth of 2-1/8"
- Installer must ensure compatibility of fit, wiring and proper mounting in the electrical junction box. This includes all applicable national and local electrical and building coded

### Recessed Housing Mounting

- **Note:** Use the SMDACKIT which includes torsion springs and Edison base adapter. (SOLD SEPERATELY)
- May be installed in IC recessed housings in direct contact with insulation  
**Note:** Not for use in recessed housing in direct contact with spray foam insulation. Refer to NEMA LSD 57-2013

### Designer Skins (Sold Separately)

- SMD skins are accessory rings in both round and square. These skins attach to the SMD for a permanent finish. Refer to the SMD accessories specification sheet for details
  - Matte White (Paintable)
  - Satin Nickel
  - Tuscan Bronze

### Compliance

- cULus Certified for use with Halo housings and for use with other's housings, , when used with SMDACKIT (Sold Separately) see instruction sheet for conditions of acceptability
- Wet and Damp Location listed, airtight per ASTM-E283
- Suitable for use in closets, compliant with NFPA® 70, NEC® Section 410.16 (A)(3) and 410.16 (C)(5)
- EMI/RFI emissions per FCC 47CFR Part 15B
- Contains no mercury or lead and RoHS compliant.
- Photometric testing in accordance with IES LM-79-08
- Lumen maintenance projections in accordance with IES LM-80-08 and TM-21-11
- Can be used for State of California Title 24 high efficacy luminaire compliance, reference the California Energy Commission Title 20 Appliance Efficiency Database for current listings
- Can be used for International Energy Conservation Code (IECC) and high efficiency luminaire compliance
- ENERGY STAR® listed, reference database for current listings

### Warranty

- Five year limited warranty, consult website for details. [www.cooperlighting.com/warranty](http://www.cooperlighting.com/warranty)

## Product Specifications

### Electrical

- General Features**
- Field selected red and green sign capability standard on all units (units shipped red, field convert to green with supplied parts)
- Dual Voltage Input 120/277 VAC, 60Hz
- AC Only**
- Optional 2C (Two circuit, FTBR) available in 120/277 VAC in standard and emergency operation
- Self Powered**
- Sure-Lites EZ Key patented external battery disconnect feature – prevents unnecessary battery drainage, saves on installation time
- Solid-state Voltage Limited Charger
- Brownout Circuit
- Low-Voltage Disconnect
- Test Switch/Power Indicator Light
- Standard 24 hour recharge time (max)
- Self-Diagnostic feature Self-Diagnostics standard for CX7 self-powered series

### Housing Construction

- Die cast aluminum housing
- Die cast canopy included (for mounting convenience only)
- no electrical components in canopy)
- Universal pattern knockouts on
- rear of single face housing for direct mounting to junction box
- Knockout provided on housing for surface attachment
- Exit can be universally mounted: ceiling, wall or end
- Choice of three finishes: black housing with brushed aluminum face, white housing with white face or black housing with black face
- NFPA 101 compliant knockout chevrons allow quick conversion to directional signs
- Single and double faced signs available, order separately

### Code Compliance

- UL 924 Listed
- UL Damp Location (0-40° C)
- Life Safety NFPA 101
- NEC/OSHA
- Most State and Local Codes
- Suitable for Floor Proximity Installation
- UL Listed for 2C (FTBR)

### Lamp Data

- AC LED: Red and green LED lamps provide uniform diffused illumination
- DC: Red and green LED DC lamps (Brighter in emergency mode)

### Warranty

- Exit – 5 year
- Battery: 7-Year pro-rata

## Technical Data

### Lamps

- CX Series Exits use energy efficient, long life LED's to provide uniform diffuse illumination of the exit face. These red and green LEDs require no maintenance and consume less than one watt, on average.

### Housing Construction

- Die cast aluminum with Brushed Aluminum face and black trim standard. Optional finishes include White and Black. NFPA 101 compliant knockout chevrons for easy conversion to directional sign. Universal pattern knockouts are in the back of the single face housing for direct mounting to junction box. Die cast aluminum alloy canopy included for universal mounting. Canopy is included for mounting convenience only—no electrical components in canopy.

### Lens

- Lenses for the CX Series Exits are made from durable, impact resistant polycarbonate. All exit faces are designed with full 3/4" stroke snap-out or snap-in chevron directional indicators to insure maximum visibility and compliance with the latest codes. Units come with red lenses installed and green lenses included for field selectable red or green signs.

### Sure-Lites EZ Key External Battery Disconnect (Self Powered Only)

- Patented technology that allows installers to externally control the battery connection. Better than line latching, allows installers to choose when the battery is connected so that it stays fresh longer. Allows battery to be disconnected after installation but before building is occupied, enabling emergency circuit to be shut down for power savings.

### Brownout Circuit (Self Powered Only)

- The brownout circuit on Sure-Lites' exits monitors the flow of AC current to the exit and activates the emergency lighting system when a predetermined reduction of AC power occurs. This dip in voltage will cause most ballasted fixtures to extinguish causing loss of normal lighting even though a total power failure has not occurred.

### Solid-State Transfer (Self Powered Only)

- The CX Series Exit incorporates solid-state switching which eliminates corroded and pitted contacts or mechanical failures associated with relays. The switching circuit is designed to detect a loss of AC voltage and automatically energizes the lamps using DC power. Upon restoration of AC power, the DC power will be disconnected and the charger will automatically recharge the battery.

### Low Voltage Disconnect (Self Powered Only)

- When the battery's terminal voltage falls, the low-voltage circuitry disconnects the lighting load. The disconnect remains in effect until normal utility power is restored, preventing deep battery discharge.

### Test Switch/Power Indicator Light (Self Powered Only)

- A test switch located on the side of the exit permits the activation of the emergency circuit for a complete operational systems check. The Power Indicator Light provides visual assurance that the AC power is on.

### Sealed Nickel Cadmium Battery (Self Powered Only)

- Sure-Lites sealed nickel cadmium batteries are maintenance-free with a life expectancy of 15 years. The sealed rechargeable nickel cadmium battery offers high discharge rates and stable performance over a wide range of temperatures, from 0-40° C. The specially designed re-sealable vent automatically controls cell pressure, assuring safety and reliability. This battery is best suited for harsh ambient temperatures because the electrolyte is not active in the electrochemical process.

### "2C" (AC Only)

- The "2C" Option enables the Exits to operate per the requirements of UL 924 when connected simultaneously to both normal and emergency power circuits (two circuit operation—UL Category FTBR—Emergency Lighting and Power Equipment). The "2C" Option alters the standard Exit such that it complies with and is UL Listed under the FTBR Category. This option should only be used for exits which are intended to be connected simultaneously to normal and emergency power circuits, but cannot support two hot inputs. Only one of the normal or emergency circuits can be powered. If both are powered simultaneously, it will make the Exit inoperable. Both circuits have universal 120/277 VAC standard.

### Self Diagnostics Option (Self Powered Only)

- The self-diagnostic unit will automatically perform all tests required by UL924, and NFPA 101. The system indicates the status of the exit at all times using the LED indicator near the test switch on the side of the unit. A 90 minute battery power (emergency mode) simulation test will occur randomly once every 12 months. A 30 second battery power simulation test will occur every 30 days.

### Photocell Test Switch

- Allows verification of proper operation of the transfer circuit and emergency lamps with a laser pointer (laser is sold as an accessory). The emergency lamps will test for 30 seconds when activated.

Laser tester

Part Number = LASER  
(sold separately)

### Warranty

- All Sure-Lites' products are backed by a firm five-year warranty against defects in material and workmanship. Maintenance-free, long-life, sealed nickel cadmium batteries carry a seven-year pro-rata warranty.

## Energy and Performance Data

Maximum power consumption under all charge conditions:

### AC Only, 120V - Red

SC

#### Series

SC - Symmetry Series Die Cast LED Exit

#### Battery

N - Nickel Cadmium  
A - AC Only

#### Face Options

1 - Single Double  
2 - Double  
U - Universal Two Faces, Backplate and Canopy

#### Letter Color

R - Red  
G - Green

#### Stencil Face/Housing Color

W - White Stencil Face, White Housing  
B - Black Stencil Face, Black Housing  
WA - Brushed Aluminum Face, White Housing  
BA - Brushed Aluminum Face, Black Housing  
N - Brushed Aluminum Face, Natural Aluminum Housing

#### Model Designator<sup>1</sup>

IC - Intelli-Charge Diagnostics  
ICT - Self-Testing Diagnostics (non-audible, self-powered models only)  
ICTA - Audible Self-Testing Diagnostics (self-powered models only)

#### Options<sup>2</sup>

2CKT1 - 120/120 Two Circuit VAC (AC-only models)  
2CKT2 - 277/277 Two Circuit VAC (AC-only models)  
BF - Buzzer/Flasher (emergency units only)  
BZ - Buzzer (emergency units only)  
DC - 12-48 VDC Input (AC only models)  
DL - Damp Location Listing 0°C to 40°C  
EX - Special Input Transformer (specify voltage & frequency)  
FA - Fire Alarm Activated Flasher  
FL - Emergency Mode Flasher (emergency units only)  
SW - Special Wording/Graphics<sup>3</sup>  
TP - Tamperproof Hardware and Bit  
VRS - Vandal Resistant Lens with Tamperproof Hardware & Bit

### Accessories<sup>4</sup> (Order Separately)

- CPKIT12W - Pendant Kit, 12" White, Includes Exit Adapter Plate
- CPKIT12B - Pendant Kit, 12" Black, Includes Exit Adapter Plate
- ICIR - Intelli-Charge Infra-Red Remote
- T15TPTOOL - Tamperproof Screwdriver
- PCS1 - Polycarbonate Vandal Shield
- WG4 - Wire Guard, Surface Wall Mount
- WG10 - Wire Guard, End Mount

### Footnotes

- For self-testing models refer to ICT and ICTA options.
- Some option combinations may impact UL listing. Consult factory for specifics.
- Requires 'open-face' design.
- Consult Signify to confirm whether specific accessories are BAA-compliant.

### codes and standards

- UL listed to standard 924
- UL damp location listing optional
- IBC, BOCA, and OSHA illumination standard
- NFPA 70 (National Electric Code)
- NFPA 101 (Life Safety Code)
- NEMA Premium certified
- Certified to the California Energy Commission in accordance with California law

### construction

- Two piece die cast aluminum construction with NFPA compliant field selectable chevrons.
- Housing and stencil face castings are available with durable epoxy based powder coat paint or brushed aluminum finishes.
- A positive latching exit stencil face provides secure closure yet is easily accessible for installation, maintenance, and inspection.

### installation

- The SC Series is available in single, double, and universal configurations.
- A mounting canopy is supplied to accommodate surface ceiling and end mounting.
- A universal knockout pattern is provided on the backplate for surface wall mounting.

### electronics

- 120/277 VAC dual voltage input with surge protection is standard on all models.
- Self powered models feature the Intelli-Charge circuit where the charging system is microprocessor driven with software embedded diagnostic routine and temperature compensation.

- Self powered models include brownout detection, AC lockout, low voltage disconnect, AC Power indicator, charge status indicator, audible user-interface controls, visual LED system fault indicator, and tactile push to test switch.
- Additional equipment safety features include reverse battery polarity detection and protection, and reverse utility power detection and protection.
- All self-powered models include an on-board IR receiver for use with the optional hand-held remote (ICIR).
- Self-testing electronics (optional)  
The diagnostic/charging platform with optional self-testing mode automatically runs a one minute self-test every 30 days and a 30 minute test on the sixth and twelfth month in accordance with NFPA 101. A one minute or 90 minute test may be initiated via the push to test switch on the unit or by activating the appropriate test command on the optional IR test device.
- Operating temperature range  
AC only models: -40°F (-40°C) to 104°F (40°C).  
Self-powered models - standard location: 65°F (19°C) to 85°F (30°C).  
Self powered models - damp location: 32°F (0°C) to 104°F (40°C).
- Power consumption  
AC only red: 0.032 A (120VAC), 0.015 A (277VAC), PF = 0.94.  
AC only green: 0.035 A (120 VAC), 0.016 A (277VAC), PF = 0.92  
Self powered red: 0.039 A (120 VAC), 0.018 A (277VAC), PF = 0.94.  
Self powered green: 0.040 A (120VAC), 0.018 A (277VAC), PF = 0.94.

# SC Cast aluminum LED exit sign

## lamps

- Illumination of the stencil face is accomplished with long lasting, high output Light Emitting Diodes (LEDs).
- Hot spots and striations are eliminated by the internal "light chamber" allowing for even illumination in normal and emergency situations.
- Average legend illumination levels exceed 25fl (79 cd/m<sup>2</sup>) during normal and emergency operation.

## options

- **2CKT1** – Available on AC only configured models to accommodate inputs from a normally on circuit and an AC emergency circuit from a generator or emergency inverter circuit limited to 120 VAC circuits.
- **2CKT2** – Available on AC only configured models to accommodate inputs from a normally on circuit and an AC emergency circuit from a generator or emergency inverter circuit limited to 277 VAC circuits.
- **BF** – This option enables the exit sign to buzz and flash together when the sign is operating under battery power. The buzzer and flashing rate is an approximate 50% duty cycle.
- **BZ** – This option enables the exit sign to buzz when the sign is operating under battery power. The buzzer rate is an approximate 50% duty cycle.
- **DC** – The DC option is reserved for AC only configured models and accommodates wiring to a remote emergency battery unit. The DC input is not polarity sensitive and accepts 12 to 48 VDC from a remote source.
- **DL** – Damp location listed products include various levels of corrosion protection on printed circuit board assemblies and other metallic parts. Environmental testing throughout a range of ambient temperature and 88% relative humidity.
- **EX** – The special input transformer option allows for input voltage and frequencies beyond the standard 120/277 VAC, 60 Hz input.

## battery

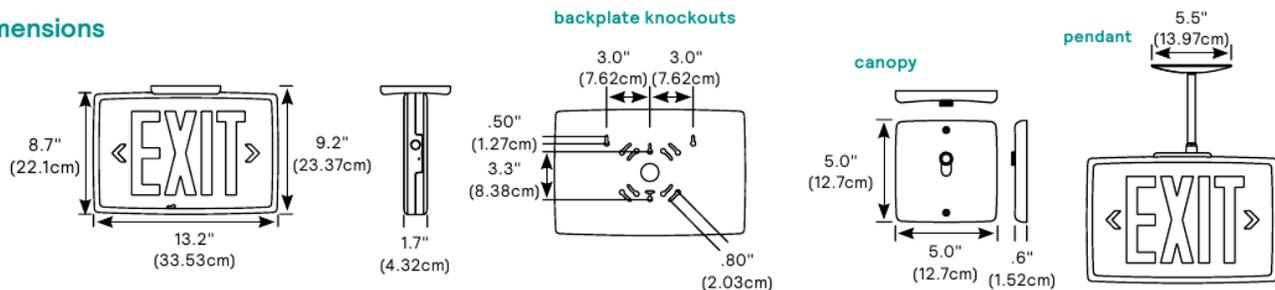

- Maintenance free sealed nickel cadmium battery
- Provides a minimum of 90 minutes of emergency power.

## warranty

- Five full year warranty on electronics and unit.

- **FA** – This option provides a two-wire harness for the electrical connection to the fire control panel. Should the fire panel activate an alarm, the exit sign will flash at a rate of approximately 50% duty cycle.
- **FL** – This option causes the exit sign to flash when the sign is operating under battery power. The flashing rate is approximately a 50% duty cycle.
- **TP** – The tamper proof option provides torx T15 hardware with center pin reject and the bit required to secure and access the equipment for future servicing.
- **ICT** – The self-testing option enables a periodic self-test of the equipment where a test routine is established to perform a one-minute test every thirty days with a 30-minute test performed on the sixth and twelfth month in accordance with NFPA 101. Equipment readiness faults are indicated with a visual LED display.
- **ICTA** – The audible self-testing option enables a periodic self-test of the equipment where a test routine is established to perform a one-minute test every thirty days with a 30-minute test performed on the sixth and twelfth month in accordance with NFPA 101. Equipment readiness faults are indicated with a visual LED display and an audible alarm.
- **BAC** – This option meets the requirements of the Buy American Act of 1933 (BAA).

Rigid Vinyl Corner Guard, 90 Degrees

Type: Corner Guard

#### DIMENSIONS

Width: 3/4"  
Length: 3/4"  
Dimension Explanation: x Full Height (Above Wall Base)

#### MATERIAL/FINISH

Material Composition: Extruded from chemical and stain resistant polyvinyl chloride with the addition of impact modifiers. No plasticizers shall be added.  
Color: #0238 Feather  
Finish: Textured

#### PERFORMANCE

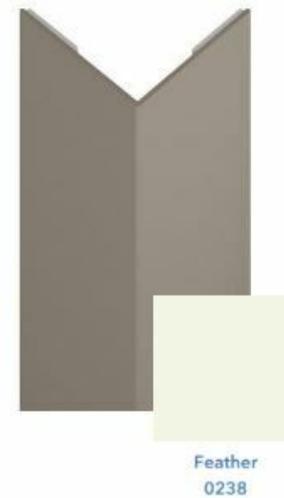

Accessories: Manufacturer's recommended adhesive  
Best Practices: Greenguard Gold Certified  
Fire/Smoke Rating: UL Classified corner guards conforming with NFPA Class A fire rating. Surface Burning characteristics as determined by UL-723 (ASTM E-84), shall be flame spread of 10 and smoke development of 350-450.  
Quality Standards: Fungal and Bacterial Resistance as tested in accordance with ASTM G-21 and AST

#### MISCELLANEOUS

Warranty: Standard IPC Limited Lifetime Warranty against material and manufacturing defects.

#### CUSTOM FIELDS

Mount: NA  
Edge: NA  
Finish: Textured  
Length: Field Verify  
Product: Tape On Corner Guard (Without Tape)  
Wing Size: 3/4"

---

**Notes**

---

There are some locations where the wall is a partial height wall.  
Coordinate height of corner guard with the Design Guideline  
Drawings.

# GENFRAME™ SERIES

Tough to the core™

GenFrame™ DW/MA-12  
 GenFrame™ DW/MA-14  
 GenFrame™ DW/MA-16  
 GenFrame™ DW/MA-18  
 GenFrame™ DW/MA-22

Product meets ANSI 250.8 requirements

Gensteel offers a full range of steel frames in standard or custom sizes and profiles. Steel frames are available for dry wall or masonry applications in 12, 14, 16, and 18 gauge for 1¾ in. (45 mm) doors and in 22 gauge for 1½ in. (35 mm) doors. All standard frames are manufactured from galvanized steel and are reinforced to receive specified architectural hardware in accordance to ANSI A115 standards. Frames are also available in stainless steel, lead-lined (x-ray) and G90 galvanized steel.

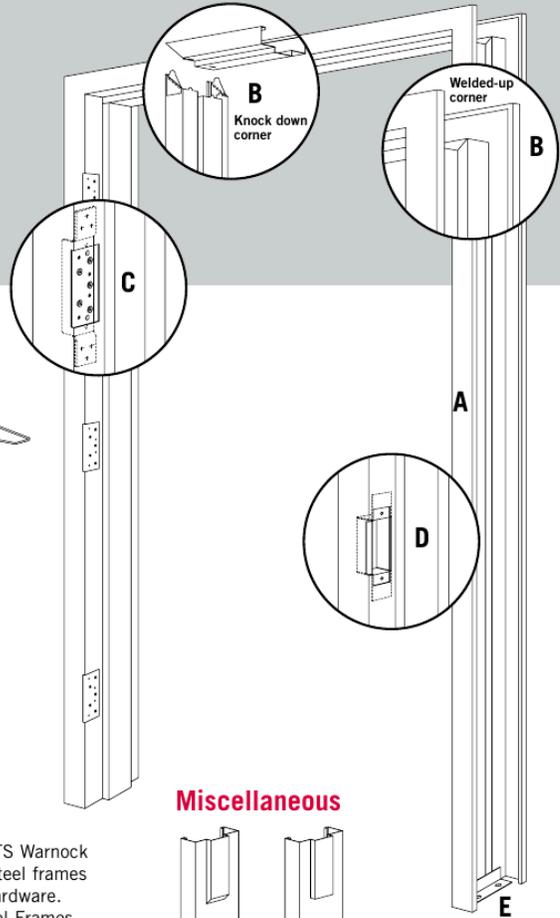

Gensteel also offers a full line of frames with thermal break for cold climate exterior applications.

#### General Specifications

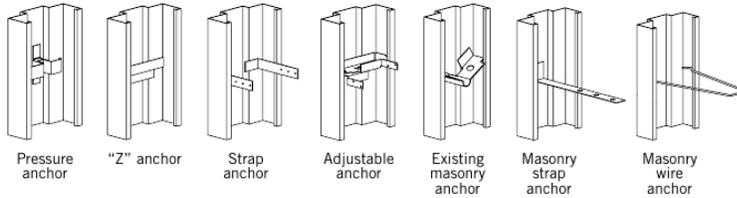

- Standard frames are available as welded-up or knock down (KD).
- Hinge jambs are prepared and reinforced to receive 3 standard weight 4½" x 4½" (114 mm x 114 mm) butt hinges. Hinge reinforcements can easily be converted to accommodate heavy weight hinges.
- Strike jambs are prepared and reinforced to receive one standard 4¾" (124 mm) strike in accordance to ANSI A115.1.
- Hinge and strike jambs are supplied with appropriate wall anchors.
- On welded-up frames, all welded joints are ground smooth and touched-up with primer paint to provide a seamless look.

## Frame Construction

- A 12, 14, 16, 18 or 22 gauge galvanized steel.
- B Knock down or welded-up corners.
- C 10 gauge high frequency dual purpose hinge reinforcement with return bend for added strength. Can easily be converted to accommodate heavy weight hinges.
- D 18 gauge ASA strike reinforcement with closed back.
- E 18 gauge floor anchor.
- High precision **QUICKFIT™** certified assembly.

## Available Wall Anchors

Recommended Uses	Light Duty	Standard Duty	Medium Duty	Heavy Duty	Extra Heavy Duty
GenFrame™ DW/MA-12					X
GenFrame™ DW/MA-14				X	X
GenFrame™ DW/MA-16			X	X	
GenFrame™ DW/MA-18		X	X		
GenFrame™ DW/MA-22	X				

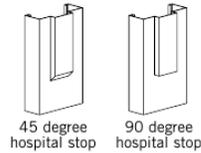

## Fire Labels

Gensteel fire labeled steel frames are approved by both Intertek Testing Services (ITS Warnock Hersey) and Underwriters Laboratories (UL) Fire Labeling Programs\*. Fire labeled steel frames must be installed with an equivalent fire labeled door with approved fire listed hardware. For fire labeling restrictions and limitations refer to the Fire Labeling Guide for Steel Frames.

\* 22 gauge frames cannot be fire rated

## Miscellaneous

### Attributes

---

Standard double rabbet hollow metal frame with welded corners

Type: Exterior/Interior Hollow Metal Door Frames

### DIMENSIONS

Dimension Explanation: Refer to Design Guideline Drawings Door Schedule

### MATERIAL/FINISH

Material Composition: 16-gauge (0.053-inch) thick steel sheet for interior and exterior applications; Exterior frames shall be 0.30 ounces per square foot per side, hot-dipped galvanized or electrolytic zinc-coated steel with a stretcher level degree of flatness  
Color: Refer to Design Guideline Drawings  
Finish: Manufacturer Standard Factory-primed, field-painted (See Project-specific Mark # for paint color)

### PERFORMANCE

Accessibility Compliance : ADA and ANSI A117.1 current version  
Acoustical Performance: Refer to Brand Design Guideline Standards  
Best Practices: Recycled content  
Fire/Smoke Rating: ASTM E152; NFPA 80 "Standard for Fire Doors, Fire Windows."  
Quality Standards: ASNS/SDI A250.8 Recommended Specifications for Standard Steel Doors and Frames"  
Structural Performance: ANSI/SDI Level 2, Performance Level B (Heavy-Duty)

### MISCELLANEOUS

Lead Time: 4 Weeks  
Warranty: 1 Year from Purchase Date

**CUSTOM FIELDS**

Frame Type: Standard Double Rabbet Hollow Metal Frame with Welded Corners

Finish: Primed

Fire Rating: Actual rating to be determined by the Architect based on location and code requirements.

Quality Standards: NA

Hardware: Refer to Design Guideline Drawings Door Schedule and hardware specifications. Prepared for ANSI strikes and pre-drilled for door silencers/ gasketing as applicable.

**Notes**

Product Data Web Link: <https://tinyurl.com/efz45xtd>

Fastening: Lock in stud anchors to secure frame to perimeter construction

Reinforcement: Concealed metal reinforcements for hardware as required and security anchor system on strike jamb

All Exterior Door Frames, Public Space, Back-of-House, and Guest Room Entry Door Frames shall have continuously welded corners.

**Special Instructions**

Clearances: 1/8" at jambs and heads; 3/4" at bottom; 1/4" at meeting edges of pairs of doors.

## 200 Degree Door Viewer with Heavy Dut...

Manufacturer: Assa Abloy Hardware

Style/Series: Door Viewer : 84010030; Cover : 8401004 - Satin Brass, Satin Chrome Copy

### Attributes

200 Degree Door Viewer with Heavy Duty Privacy Cover at Entry Door

Item Type: Door Viewer

#### DIMENSIONS

Diameter: Ø14mm, vision angle 200° for door thicknesses 35-52mm, extension optional

#### MATERIAL / FINISH

Finish: Satin Brass, Satin Chrome

Material Composition: Nickel Plated Brass

#### PERFORMANCE

Accessibility Compliance : At a minimum, comply with accessibility regulations and standards of the country where the project is located. If governing accessibility regulations and standards do not exist, comply with the criteria as outlined by the U.S. ADA Standards for persons with disabilities. ([www.ada.gov](http://www.ada.gov))

#### MISCELLANEOUS

Lead Time: In Stock; subject to sale

Warranty: 2 Years

### Notes

Features: Heavy Duty Privacy Cover (Marriott Requirement)

Suitable for fire rated doors

Superior precision laser cut optics to eliminate distortion

1. Project Architect to determine seal type with door manufacturer in accordance with fire/acoustic testing results.

2. Utilize (1) finish of door hardware per project; do not mix matte black and stainless steel finishes within a single property

## **MATERIAL SAFETY / FIRE HAZARDS**

Per OSHA Regulations (Standards – 29 CFR) this Pemko item is considered an “article” as described in section 1910.1200 paragraph (c), meaning that it is a manufactured item other than a fluid and is not a hazard. To help our customers we are providing additional information in this section to cover relevant topics found on Safety Data Sheets (SDS) but not found elsewhere in this document.

### **FIRE HAZARD:**

Aluminum alloy is a non-combustible material. Solid aluminum does not present a fire hazard.

### **FIRST AID MEASURES**

Under normal conditions this item presents no small parts and so this item cannot be inhaled or swallowed and has no adverse reaction when coming in contact with skin. Observe good industrial hygiene after installation.

**Note to physician:** treat symptomatically and supportively

### **FIREFIGHTING MEASURES**

As in any fire, prevent human exposure to fire, smoke, fumes, or products of combustion. Evacuate non-essential personnel from the fire area. Firefighters should wear face mask with self-contained breathing apparatus (SCBA) and impervious protective clothing. In case of aluminum fire, use class D dry powder to extinguish. DO NOT USE water or halogenated extinguishing media.

- Hazardous combustion products: none.

### **SPILL PROCEDURES**

Sweep up any off-cuts from product and store in a suitable container for disposal

### **HANDLING, STORAGE, AND DISPOSAL**

There are no specific handling instructions. Always store at room temperature and keep away from heat sources. When disposing, if possible, recycle the item and its packaging. Otherwise disposal should be in accordance with local, state, or federal legislation. Bury in an authorized landfill site or incinerate under approved controlled conditions.

### **EFFECTS OF EXPOSURE**

There are no effects under normal conditions of use. Observe good industrial hygiene.

### **TOXICITY**

There is no toxicity hazard under normal conditions of use

### **HEALTH HAZARD**

This product may contain hazardous ingredients; harmful effects are unlikely under normal conditions.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

**ASSA ABLOY**

---

## CARE AND MAINTENANCE

### CLEANING

Pemko's aluminum products and solid gasket products can be cleaned with a mild soap with warm water. A clean non-abrasive cloth should be used to clean the surface of these products. For removing grease, sealant, or other minimal adhesives a mild solvent such as mineral spirits may be used; then clean with mild soap mixed with warm water. To dry, either allow to air dry or wipe dry with a chamois, squeegee, or lint-free cloth.

For sponge gasket and weatherstrip products, wipe with a damp cloth. Do not use mineral spirits or other chemical as this may cause the plastic to "melt" or deteriorate. To dry, either allow to air dry or wipe dry with a chamois, squeegee, or lint-free cloth.

The use of strong solvents or cleaner concentrations may cause damage to the finish surface and isn't recommended.

### MAINTENANCE

Pemko products are generally low-maintenance and require nothing more than general cleaning. Should anything outside of "general cleaning" arise, please consult Pemko Customer Service.

If you have any questions, or if you have a situation outside this scope, please contact Pemko Customer Service.

## **MATERIAL SAFETY / FIRE HAZARDS**

Per OSHA Regulations (Standards – 29 CFR) this Pemko item is considered an “article” as described in section 1910.1200 paragraph (c), meaning that it is a manufactured item other than a fluid and is not a hazard. To help our customers we are providing additional information in this section to cover relevant topics found on Safety Data Sheets (SDS) but not found elsewhere in this document.

### **FIRE HAZARD:**

Aluminum alloy is a non-combustible material. Solid aluminum does not present a fire hazard.

### **FIRST AID MEASURES**

Under normal conditions this item presents no small parts and so this item cannot be inhaled or swallowed and has no adverse reaction when coming in contact with skin. Observe good industrial hygiene after installation.

**Note to physician:** treat symptomatically and supportively

### **FIREFIGHTING MEASURES**

As in any fire, prevent human exposure to fire, smoke, fumes, or products of combustion. Evacuate non-essential personnel from the fire area. Firefighters should wear face mask with self-contained breathing apparatus (SCBA) and impervious protective clothing. In case of aluminum fire, use class D dry powder to extinguish. DO NOT USE water or halogenated extinguishing media.

- Hazardous combustion products: none.

### **SPILL PROCEDURES**

Sweep up any off-cuts from product and store in a suitable container for disposal

### **HANDLING, STORAGE, AND DISPOSAL**

There are no specific handling instructions. Always store at room temperature and keep away from heat sources. When disposing, if possible, recycle the item and its packaging. Otherwise disposal should be in accordance with local, state, or federal legislation. Bury in an authorized landfill site or incinerate under approved controlled conditions.

### **EFFECTS OF EXPOSURE**

There are no effects under normal conditions of use. Observe good industrial hygiene.

### **TOXICITY**

There is no toxicity hazard under normal conditions of use

### **HEALTH HAZARD**

This product may contain hazardous ingredients; harmful effects are unlikely under normal conditions.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

**ASSA ABLOY**

---

## CARE AND MAINTENANCE

### CLEANING

Pemko's aluminum products and solid gasket products can be cleaned with a mild soap with warm water. A clean non-abrasive cloth should be used to clean the surface of these products. For removing grease, sealant, or other minimal adhesives a mild solvent such as mineral spirits may be used; then clean with mild soap mixed with warm water. To dry, either allow to air dry or wipe dry with a chamois, squeegee, or lint-free cloth.

For sponge gasket and weatherstrip products, wipe with a damp cloth. Do not use mineral spirits or other chemical as this may cause the plastic to "melt" or deteriorate. To dry, either allow to air dry or wipe dry with a chamois, squeegee, or lint-free cloth.

The use of strong solvents or cleaner concentrations may cause damage to the finish surface and isn't recommended.

### MAINTENANCE

Pemko products are generally low-maintenance and require nothing more than general cleaning. Should anything outside of "general cleaning" arise, please consult Pemko Customer Service.

If you have any questions, or if you have a situation outside this scope, please contact Pemko Customer Service.

## 4600(LN) Cylindrical Locks

Yale® 4600(LN) cylindrical locks are the ideal choice for a wide variety of commercial applications where consistent quality, ease of use and installation are required at an economical price. The 4600(LN) Series is certified to ANSI/BHMA Grade 2 standards and is UL fire-listed for all functions, ensuring reliability and peace of mind.

To make your building work better with your budget, Yale Works for You<sup>SM</sup>.

# Benefits & Features

## Benefits

- **Versatile:** Field reversible handing and other product options offer flexibility in many commercial applications
- **Economical:** Priced affordably to suit projects of all budgets
- **Secure:** Quality security from a trusted brand for over 170 years
- **Strong & Reliable:** ANSI/BHMA Grade 2 certified for long life and reliability

## Features

- Field reversible handing for easy installation
- Range of functions and options for a wide variety of commercial applications
- Available in five trims and nine finishes
- ADA compliant for ease of accessibility

## Specifications

<b>Door Prep</b>	ANSI/BHMA A156.115
<b>Door Thickness</b>	Adjustable for doors 1-3/8" to 1-3/4" (35mm to 44mm)
<b>Backset</b>	2-3/4" (70mm) standard, 2-3/8" (60mm) optional
<b>Handing</b>	Non-handed, field reversible
<b>Latchbolt</b>	2-3/4" (70mm) backset, 1/2" (13mm) throw latchbolt plain or deadlocking. See page 10 for additional options.
<b>Strike</b>	ANSI strike 4-7/8" x 1-1/4" x 1-1/4" (124mm x 32mm x 32mm) lip to center. See page 11 for additional options.
<b>Through-bolts</b>	Optional through-bolts provided. Installation is at the discretion of the installer.
<b>ANSI/BHMA</b>	Certified Grade 2, ANSI/BHMA A156.2, Series 4000
<b>UL/cUL</b>	Listed for 3 hour fire doors
<b>Windstorm</b>	Certified, check local codes.
<b>Warranty:</b>	3 years

# Cylinders/Keying

Illustration	Type	Model Number	Number of Pins
	Key-in-Knob Cylinder	1805 (Knob)	6
	Key-in-Lever Cylinder	1806 (Lever)	6

### Keying:

All cylinders furnished standard 6-pin, keyed random in Yale® PARA keyway, pinned to Yale .019" specification. Each cylinder furnished with two nickel silver keys. Optional Yale keyways available upon request, extended lead times may apply.

### Options:

Cylinders available 0-bitted, keyed alike, master keyed or construction master keyed upon request. Cylinders provided in 605 and 626 finishes only.

## Levers/Knobs Accepting Small Format Interchangeable Cores

Illustration	Cylinder Type	Prefix	Ordering Example
	SFIC (Accepts all Small Format Interchangeable Cores) 6- or 7-pin.	B (i.e. B-AU, B-MO, B-PB, B-TB, B-CA)	B-PB-4607LN x 626

## Other Manufacturers Keyway Cylinders/Cores

Illustration	Type	Model Number	Number of Pins
	Best® Keyway Core. Available keyed random, master keyed or uncombined. Specify keyway A, B, C, D, E, F, G, H, J, K, L or M.	A600	6 or 7 (Specify)
	Schlage® C Keyway Knob Cylinder. Available 0-bitted or keyed random.	2805 x C	6
	Schlage® C Keyway Lever Cylinder. Available 0-bitted or keyed random.	2806 x C	6
	Corbin Russwin L4 Keyway Cylinder. Available keyed random.	3806 x L4	6
	Corbin 60 Keyway Cylinder. Available keyed random.	3806 x 60	6
	Russwin D1 Keyway Cylinder. Available keyed random.	3806 x D1	6
	Sargent® LA Keyway Cylinder. Available keyed random.	3806 x LA	6
	Schlage® E Keyway Cylinder. Available keyed random.	3806 x E	6

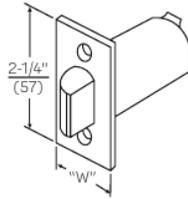

Note: 2805, 2806 and 3806 cylinders are supplied with applicable tailpieces that are needed to operate 4600(LN) locksets. These cylinders are not ANSI/BHMA certified.

# Latchbolts

## Plain Latchbolts

Model No. MCP234 supplied standard with all 4600(LN) series locksets without locking function. Model No. MCP234 latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts available to special order.

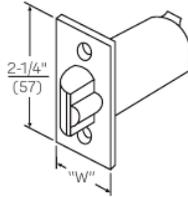

Model Number	Front	Backset	Throw	"W" Front Width	Latch Diameter*
MCP238	Square	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCP238R	Round	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCP234	Square	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	7/8" (22mm)

\*1/8" sleeve (P/N 14-0378-9001) supplied with all latchbolts to accommodate 1" preps.

## Deadlocking Latchbolts

Model No. MCD234 supplied standard with all 4600(LN) series locksets with locking function. Model No. MCD234 latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts available to special order.

Model Number	Front	Backset	Throw	"W" Front Width	Latch Diameter*
MCD238	Square	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCD238R	Round	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCD234	Square	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	7/8" (22mm)

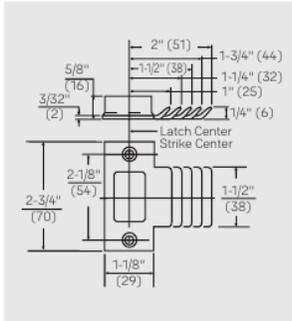

\*1/8" sleeve (P/N 14-0378-9001) supplied with all latchbolts to accommodate 1" preps.

Note: Locksets ordered with 2-3/8" backset square or round latchbolts will automatically include the corresponding 70S or 71S full lip strike as standard. Order must specify if alternate strike required.

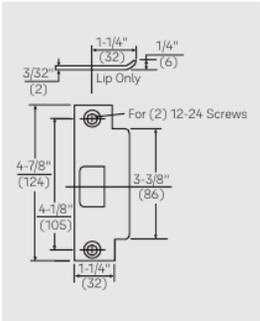

# Strikes

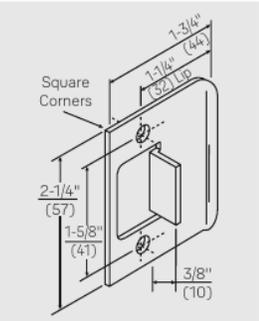

Yale® 4600(LN) locks are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in a variety of lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb, accounting for any interfering trim (i.e. wood molding) and then add 1/4" (6mm) for curved lip. All strikes are reversible. Strikes are fabricated of either brass, bronze or stainless steel, depending on the lockset trim finish. When ordering strikes separately, specify the finish required.

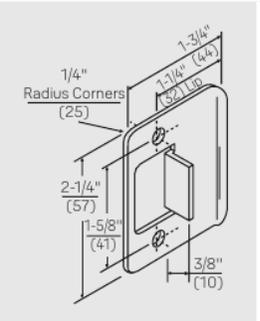

**Model No. 371 T-Strike (Standard for Knob - Optional for Lever)**  
 2-3/4" x 1-1/8" x 1-1/4" (70mm x 29mm x 32mm) lip to center supplied standard for knob. 1", 1-1/2", 1-3/4" and 2" curved lip lengths available by special order. Wrought strike box supplied.

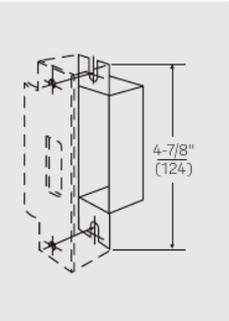

**Model No. 497 ANSI Strike (Standard for Lever - Optional for Knob)**  
 For door and frames with ANSI/BHMA A156.115 preparations. 4-7/8" x 1-1/4" x 1-1/4" (124mm x 32mm x 32mm) lip to center supplied standard for lever. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order. Available with optional 202 Strike Box. Specify 497 x 202.

**Model No. 70S Full Lip Strike (Optional for Knob or Lever)**  
 2-1/4" x 1-3/4" x 1-1/4" (57mm x 44mm x 32mm) lip to center with full lip anti-rattle tab.

**Model No. 71S Full Lip Strike (Optional for Knob or Lever)**  
 1/4" radius. Similar in dimensions and function to the 70S Strike but with radius corners for easy mortising by power tools. Anti-rattle tab.

**Model No. 202 Strike Box**  
 Available to special order. Specify 497 x 202.

## Attaching Screws

### For Model Nos. 371, 70S, and 71S

#8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws.

### For Model No. 497

#12-24 x 1" (25mm) Phillips flat head combination wood and machine screws.

## Wall Guard No. 606

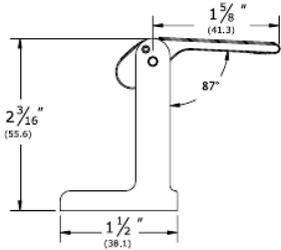

- Material:** Clear rubber  
**Other:** Sold in sheets of 55  
**Features:** Self-adhesive mounting

No.	Fastener	Size	Weight
606	Self-adhesive back	1" x 1"	0.4 lbs./55

## Privacy Door Latch No. PDL (formerly 607)

- Material:** Zinc die cast  
**Finishes:** BRS, DBRS, STNN, CRM, DCRM, ORB  
**Features:**
- ADA compliant
  - Enhanced in room privacy
  - Easy to install
  - For use with UL Classified fire doors for use with hollow metal steel composite type fire doors rated up to and including 3 hrs  
Wood composite type fire doors rated up to and including 1½ hrs and 20 minutes without hose stream

No.	Fastener	Size	Weight
PDL	#12 x 1¼" FH SMS	1½" x 2 <sup>13</sup> / <sub>16</sub> "	0.75 lbs.

## Door Silencer No. 608CA

- Material:** Clear rubber  
**Other:** Sold in packages of 300  
**Features:** Self-adhesive mounting

No.	Fastener	Size	Weight
608CA	¾" dia. x 1/8"	Metal or wood	0.2 lbs./300

## Door Silencers No. 608, 609

- Material:** DuraFlex gray rubber  
**Other:** Sold in packages of 100

No.	Size	Frame Type	Weight	ANSI A156.16
608	½" dia. x 5/8"	Metal	1.3 lbs./500	L03011
609	¾" x ¾"	Wood	1.3 lbs./500	L03021

Warranty: See Website

### NOTES

Manufacturer Data Sheet: <https://tinyurl.com/2ja5mckc>

Special Instructions: Install this product according to the installation instructions. 1/2° minimum finished floor thickness required. Studs should be positioned as shown. Backerboards and fasteners protrude beyond the back wall 1-1/2" (38 mm). If installing this product against wall board, 1-1/2" (38 mm) furring strips installed over the wall board are recommended. The stud pocket depth of 40-5/8" (1032 mm) will need to be increased by the combined thickness of the wall board and furring strips. Drain cutout in subfloor to be 10-1/2" (267 mm) per rough-in illustration as shown to allow the backside of the drain to sit below the subfloor surface. ADA compliant when installed to the specific requirements of these regulations.

Model: ProMar 200 ZeroVOC Interior Latex (B30W12651)

#### MATERIAL/FINISH

Color: SW7757 High Reflective White

Finish: Flat

#### PERFORMANCE

Best Practices: Low-VOC, UL Greenguard Certified

Quality Standards: Interior paint: Comply with Green Seal GS-11; MPI Architectural Painting Specification Manual; 40 CFR, Part 59, Subpart D 2001, National Volatile Organic Compound Emission Standards for Architectural Coatings

#### MISCELLANEOUS

Eco-Feature(s) \*as per manufacturer: Formulated without lead, mercury or chromates. 0 g/L VOC (US EPA) | GREENGUARD Gold Certified | LEED v4 VOC & Emissions Compliant, Materials Ingredient Declaration available.

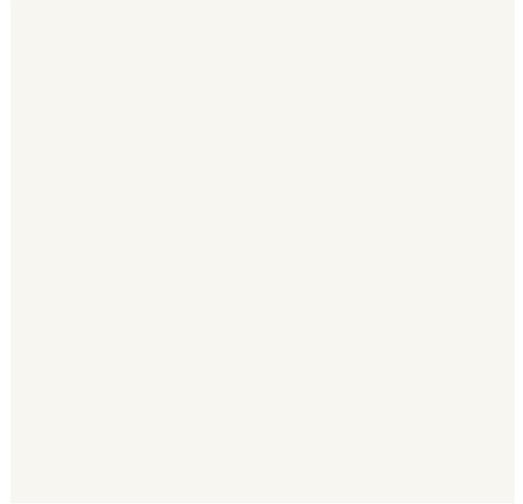

Lead Time: Standard lead times are 3-5 days from receipt of purchase order. Lead time should be confirmed by the manufacturer.

Warranty: Limited Lifetime

#### NOTES

Manufacturer Data Sheet: <https://tinyurl.com/y66pjxfe>

Special Instructions: Primer, undercoat, block filler, finish coat(s) are to be compatible and of the same manufacturer. All primers and undercoats are to be tinted to 50% lighter than the selected and approved finish coat color. All finish coats are to be tinted 25% darker than the primer coat until approved finish coat color is achieved. When the color schedule calls for the use of DEEP TONES (interior and/or exterior), it is the responsibility of the painting contractor to utilize the appropriate Deep Base Primers as manufactured by the painting company for use on the substrate for

---

which they are intended. Required Wall Finish Levels: All walls to receive VWC are to have a Level 3 (minimum) Gypsum Board Finish. All walls to receive Paint (or light to med weight wall covering) are to have a level 4 Gypsum Board Finish. All walls to receive Gloss, enamel paint, or Murals to have a Level 5 Gypsum Board Finish.

**ProMar® 200 Zero V.O.C.****Interior Latex Flat**

B30-Series

**SHERWIN  
WILLIAMS®****CHARACTERISTICS**

**ProMar® 200 Zero V.O.C. Interior Latex Flat** is a durable, professional quality, interior vinyl acrylic finish for use on walls and ceilings of primed plaster, wallboard, wood, masonry, and primed metal.

**Color:** Most Colors  
To optimize hide and color development, always use the recommended P-Shade primer.

**Coverage:** 350-400 sq. ft. per gallon  
@ 4 mils wet  
1.4 mils dry

**Drying Time, @ 77° F, 50% RH:**  
Touch: 1 Hour  
Recoat: 4 Hours

Drying and recoat times are temperature, humidity, and film thickness dependent.

**Finish:** 1.5-3.5 units @ 85°

**Tinting with CCE only:**

<b>Base:</b>	<b>oz. per gallon:</b>	<b>Strength:</b>
High Ref White	0-6	SherColor
Extra White	0-7	SherColor
Deep Base	4-12	SherColor
Ultradeep Base	10-12	SherColor
Real Red	0-12	SherColor
Bright Yellow	0-12	SherColor
Dover White		<b>Do Not Tint</b>

**Extra White B30W12651**

(may vary by color)

**V.O.C. (less exempt solvents):**

Less than 50 grams per litre; 0.42 lbs. per gallon  
As per 40 CFR 59.406

**Volume Solids:** 34 ±2%

**Weight Solids:** 52 ±2%

**Weight per Gallon:** 11.45 lbs

**Flash Point:** N.A.

**Vehicle Type:** Vinyl Acrylic

**Shelf Life:** 36 months, unopened

**WVP Perms (US):** 70.83 grains/(hr ft<sup>2</sup> in Hg)

**Anti-microbial**

This product contains agents which inhibit the growth of mold and mildew on the surface of this paint film.

**COMPLIANCE**

As of 06/29/2023, Complies with:

<b>OTC</b>	Yes
<b>OTC Phase II</b>	Yes
<b>S.C.A.Q.M.D.</b>	Yes
<b>CARB</b>	Yes
<b>CARB SCM 2007</b>	Yes
<b>CARB SCM 2020</b>	Yes
<b>Canada</b>	Yes
<b>LEED® v4 &amp; v4.1 Emissions</b>	Yes
<b>LEED® v4 &amp; v4.1 V.O.C.</b>	Yes
<b>EPD-NSF® Certified</b>	Yes
<b>MIR-Manufacturer Inventory</b>	Yes
<b>MPI®</b>	Yes

**APPLICATION**

Apply at temperatures above 50°F  
No reduction needed.

**Brush:**  
Use a nylon-polyester brush.

**Roller:**  
Use a 3/8 to 3/4 inch nap synthetic cover.

For specific brushes and rollers, please refer to our Brush and Roller Guide on [Sherwin-williams.com](http://Sherwin-williams.com)

**Spray - Airless:**  
Pressure 2000 p.s.i.  
Tip .017-.021 inch

**APPLICATION TIPS**

Make sure product is completely agitated (mechanically or manually) before use.

Priming and application of two coats at the recommended film thickness can help where hiding of a previous coating or application to new drywall is a factor.

Using the same method of application and batch to touch up with as that originally used will help improve touch up.

When original application was by spray, preconditioning of touch up paint by running it through the spray tip will help touch up appearance.

**SPECIFICATIONS**

**Block:**  
1 coat ConFlex Block Filler\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Drywall:**  
1 coat ProMar 200 Zero V.O.C. Latex Primer  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Masonry:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Plaster:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Wood:**  
1 coat Premium Wall & Wood Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

\*These primers contain less than 50 grams per litre V.O.C.

Other primers may be appropriate.

When repainting involves a drastic color change, a coat of primer will improve the hiding performance of the topcoat color.

# ProMar<sup>®</sup> 200 Zero V.O.C. Interior Latex Flat

## SURFACE PREPARATION

**WARNING!** If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to [www.epa.gov/lead](http://www.epa.gov/lead).

Remove all surface contamination by washing with an appropriate cleaner, rinse thoroughly and allow to dry. Existing peeled or checked paint should be scraped and sanded to a sound surface. Glossy surfaces should be sanded dull. Stains from water, smoke, ink, pencil, grease, etc. should be sealed with the appropriate primer-sealer. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

### **Caulking:**

Gaps between walls, ceiling, crown moldings, and other interior trim can be filled with the appropriate caulk after priming the surface.

### **Drywall:**

Fill cracks and holes with patching paste-spackle and sand smooth. Joint compounds must be cured and sanded smooth. Remove all sanding dust.

### **Masonry, Concrete, Cement, Block:**

All new surfaces must be cured according to the supplier's recommendations – usually about 30 days. Remove all form release and curing agents. Rough surfaces can be filled to provide a smooth surface. If painting cannot wait 30 days, allow the surface to cure 7 days and prime the surface with Loxon Concrete & Masonry Primer.

## SURFACE PREPARATION

### **Mildew:**

Prior to attempting to remove mildew, it is always recommended to test any cleaner on a small, inconspicuous area prior to use. Bleach and bleaching type cleaners may damage or discolor existing paint films. Bleach alternative cleaning solutions may be advised. Mildew may be removed before painting by washing with a solution of 1 part liquid bleach and 3 parts clean water. Apply the solution and scrub the mildewed area. Allow the solution to remain on the surface for 10 minutes. Rinse thoroughly with clean water and allow the surface to dry before painting. Wear protective eyewear, waterproof gloves, and protective clothing. Quickly wash off any of the mixture that comes in contact with your skin. Do not add detergents or ammonia to the bleach-water solution.

### **Plaster:**

Bare plaster must be cured and hard. Textured, soft, porous, or powdery plaster should be treated with a solution of 1 pint household vinegar to 1 gallon of clean water. Repeat until the surface is hard, rinse with clear water and allow to dry.

### **Wood:**

Sand any exposed wood to a fresh surface. Patch all holes and imperfections with a wood filler or putty and sand smooth.

## CAUTIONS

For interior use only.  
Protect from freezing.  
Non-Photochemically reactive.

Before using, carefully read **CAUTIONS on label**.

Use only with adequate ventilation. To avoid overexposure, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air, or wear respiratory protection (NIOSH approved) or leave the area. Avoid contact with eyes and skin. Wash hands after using. Keep container closed when not in use. Do not transfer contents to other containers for storage.

**FIRST AID:** In case of eye contact, flush thoroughly with large amounts of water. Get medical attention if irritation persists. If swallowed, call Poison Control Center, hospital emergency room, or physician immediately. **WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. **DO NOT TAKE INTERNALLY. KEEP OUT OF THE REACH OF CHILDREN.**

Model: ProMar 200 ZeroVOC Interior Latex (B31W02650)

#### MATERIAL/FINISH

Color: SW7757 High Reflective White

Finish: Semi-Gloss

#### PERFORMANCE

Best Practices: : Low-VOC, UL Greenguard Certified

Quality Standards: : Interior paint: Comply with Green Seal GS-11; MPI Architectural Painting Specification Manual; 40 CFR, Part 59, Subpart D 2001, National Volatile Organic Compound Emission Standards for Architectural Coatings

#### MISCELLANEOUS

Eco-Feature(s) \*as per manufacturer: Formulated without lead, mercury or chromates. 0 g/L VOC (US EPA) | GREENGUARD Gold Certified | LEED v4 VOC & Emissions Compliant, Materials Ingredient Declaration available.

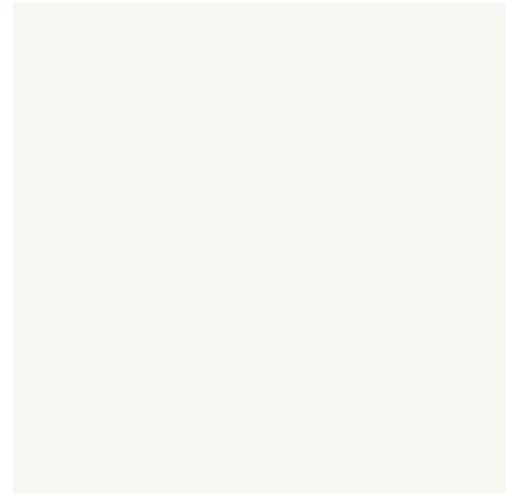

Lead Time: Standard lead times are 3-5 days from receipt of purchase order. Lead time should be confirmed by the manufacturer.

Warranty: Limited Lifetime

#### NOTES

Manufacturer Data Sheet: <https://tinyurl.com/3f98z49a>

Special Instructions: Primer, undercoat, block filler, finish coat(s) are to be compatible and of the same manufacturer. All primers and undercoats are to be tinted to 50% lighter than the selected and approved finish coat color. All finish coats are to be tinted 25% darker than the primer coat until approved finish coat color is achieved. When the color schedule calls for the use of DEEP TONES (interior and/or exterior), it is the responsibility of the painting contractor to utilize the appropriate Deep Base Primers as manufactured by the painting company for use on the substrate for

---

which they are intended. Required Wall Finish Levels: All walls to receive VWC are to have a Level 3 (minimum) Gypsum Board Finish. All walls to receive Paint (or light to med weight wall covering) are to have a level 4 Gypsum Board Finish. All walls to receive Gloss, enamel paint, or Murals to have a Level 5 Gypsum Board Finish.

# ProMar® 200 Zero V.O.C. Interior Latex Semi-Gloss

B31-Series

**SHERWIN  
WILLIAMS®**

## CHARACTERISTICS

**ProMar® 200 Zero V.O.C. Interior Latex Semi-Gloss** is a durable, professional quality, interior vinyl acrylic finish for use on walls, ceilings, and trim of primed plaster, wallboard, wood, masonry, and primed metal.

**Color:** Most Colors  
To optimize hide and color development, always use the recommended P-Shadow primer.

**Coverage:** 350-400 sq. ft. per gallon  
@ 4 mils wet  
1.5 mils dry

**Drying Time, @ 77° F, 50% RH:**  
Touch: 1 Hour  
Recoat: 4 Hours

Drying and recoat times are temperature, humidity, and film thickness dependent.

**Finish:** 25-35 units @ 85°

### **Tinting with CCE only:**

<b>Base:</b>	<b>oz. per gallon:</b>	<b>Strength:</b>
High Ref White	0-6	SherColor
Extra White	0-7	SherColor
Deep Base	4-12	SherColor
Ultradeep Base	10-12	SherColor
Real Red	0-12	SherColor
Bright Yellow	0-12	SherColor
Dover White		

**Do Not Tint**

### **Extra White B31W12651**

(may vary by color)

### **V.O.C. (less exempt solvents):**

Less than 50 grams per litre; 0.42 lbs. per gallon  
As per 40 CFR 59.406

**Volume Solids:** 38 ±2%

**Weight Solids:** 50 ±2%

**Weight per Gallon:** 10.30 lbs

**Flash Point:** N.A.

**Vehicle Type:** Vinyl Acrylic

**Shelf Life:** 36 months, unopened

**WVP Perms (US):** 85.75 grains/(hr ft<sup>2</sup> in Hg)

### **Anti-microbial**

This product contains agents which inhibit the growth of mold and mildew on the surface of this paint film.

## COMPLIANCE

As of 06/29/2023, Complies with:

<b>OTC</b>	Yes
<b>OTC Phase II</b>	Yes
<b>S.C.A.Q.M.D.</b>	Yes
<b>CARB</b>	Yes
<b>CARB SCM 2007</b>	Yes
<b>CARB SCM 2020</b>	Yes
<b>Canada</b>	Yes
<b>LEED® v4 &amp; v4.1 Emissions</b>	Yes
<b>LEED® v4 &amp; v4.1 V.O.C.</b>	Yes
<b>EPD-NSF® Certified</b>	Yes
<b>MIR-Manufacturer Inventory</b>	Yes
<b>MPI®</b>	Yes

## APPLICATION

Apply at temperatures above 50°F  
No reduction needed.

**Brush:**  
Use a nylon-polyester brush.

**Roller:**  
Use a 3/8 to 3/4 inch nap synthetic cover.

For specific brushes and rollers, please refer to our Brush and Roller Guide on [Sherwin-williams.com](http://Sherwin-williams.com)

**Spray - Airless:**  
Pressure 2000 p.s.i.  
Tip .017-.021 inch

## APPLICATION TIPS

Make sure product is completely agitated (mechanically or manually) before use.

Priming and application of two coats at the recommended film thickness can help where hiding of a previous coating or application to new drywall is a factor.

Using the same method of application and batch to touch up with as that originally used will help improve touch up.

When original application was by spray, preconditioning of touch up paint by running it through the spray tip will help touch up appearance.

## SPECIFICATIONS

**Block:**  
1 coat ConFlex Block Filler\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Drywall:**  
1 coat ProMar 200 Zero V.O.C. Latex Primer  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Masonry:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Plaster:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Wood:**  
1 coat Premium Wall & Wood Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

\*These primers contain less than 50 grams per litre V.O.C.

Other primers may be appropriate.

When repainting involves a drastic color change, a coat of primer will improve the hiding performance of the topcoat color.

**Vehicle Type:** Vinyl Acrylic

**Shelf Life:** 18 months, unopened

**WVP Perms (US):** 54.19 grains/(hr ft<sup>2</sup> in Hg)

### **Anti-microbial**

This product contains agents which inhibit the growth of mold and mildew on the surface of this paint film.

## COMPLIANCE

As of 06/29/2023, Complies with:

<b>OTC</b>	Yes
<b>OTC Phase II</b>	Yes
<b>S.C.A.Q.M.D.</b>	Yes
<b>CARB</b>	Yes
<b>CARB SCM 2007</b>	Yes
<b>CARB SCM 2020</b>	Yes
<b>Canada</b>	Yes
<b>LEED® v4 &amp; v4.1 Emissions</b>	Yes
<b>LEED® v4 &amp; v4.1 V.O.C.</b>	Yes
<b>EPD-NSF® Certified</b>	Yes
<b>MIR-Manufacturer Inventory</b>	Yes
<b>MPI®</b>	Yes

## APPLICATION

Apply at temperatures above 50°F  
No reduction needed.

**Brush:**  
Use a nylon-polyester brush.

**Roller:**  
Use a 3/8 to 3/4 inch nap synthetic cover.

For specific brushes and rollers, please refer to our Brush and Roller Guide on [Sherwin-williams.com](http://Sherwin-williams.com)

**Spray - Airless:**  
Pressure 2000 p.s.i.  
Tip .017-.021 inch

## APPLICATION TIPS

Make sure product is completely agitated (mechanically or manually) before use.

Priming and application of two coats at the recommended film thickness can help where hiding of a previous coating or application to new drywall is a factor.

Using the same method of application and batch to touch up with as that originally used will help improve touch up.

When original application was by spray, preconditioning of touch up paint by running it through the spray tip will help touch up appearance.

## SPECIFICATIONS

**Block:**  
1 coat ConFlex Block Filler\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Drywall:**  
1 coat ProMar 200 Zero V.O.C. Latex Primer  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Masonry:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Plaster:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Wood:**  
1 coat Premium Wall & Wood Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

\*These primers contain less than 50 grams per litre V.O.C.

Other primers may be appropriate.

When repainting involves a drastic color change, a coat of primer will improve the hiding performance of the topcoat color.

# ProMar<sup>®</sup> 200 Zero V.O.C. Interior Latex Eg-Shel

## SURFACE PREPARATION

**WARNING!** If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a **NIOSH**-approved respirator to control lead exposure. Clean up carefully with a **HEPA** vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at **1-800-424-LEAD** or log on to **www.epa.gov/lead**.

Remove all surface contamination by washing with an appropriate cleaner, rinse thoroughly and allow to dry. Existing peeled or checked paint should be scraped and sanded to a sound surface. Glossy surfaces should be sanded dull. Stains from water, smoke, ink, pencil, grease, etc. should be sealed with the appropriate primer-sealer. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

### **Caulking:**

Gaps between walls, ceiling, crown moldings, and other interior trim can be filled with the appropriate caulk after priming the surface.

### **Drywall:**

Fill cracks and holes with patching paste-spackle and sand smooth. Joint compounds must be cured and sanded smooth. Remove all sanding dust.

### **Masonry, Concrete, Cement, Block:**

All new surfaces must be cured according to the supplier's recommendations – usually about 30 days. Remove all form release and curing agents. Rough surfaces can be filled to provide a smooth surface. If painting cannot wait 30 days, allow the surface to cure 7 days and prime the surface with Loxon Concrete & Masonry Primer.

## SURFACE PREPARATION

### **Mildew:**

Prior to attempting to remove mildew, it is always recommended to test any cleaner on a small, inconspicuous area prior to use. Bleach and bleaching type cleaners may damage or discolor existing paint films. Bleach alternative cleaning solutions may be advised. Mildew may be removed before painting by washing with a solution of 1 part liquid bleach and 3 parts clean water. Apply the solution and scrub the mildewed area. Allow the solution to remain on the surface for 10 minutes. Rinse thoroughly with clean water and allow the surface to dry before painting. Wear protective eyewear, waterproof gloves, and protective clothing. Quickly wash off any of the mixture that comes in contact with your skin. Do not add detergents or ammonia to the bleach-water solution.

### **Plaster:**

Bare plaster must be cured and hard. Textured, soft, porous, or powdery plaster should be treated with a solution of 1 pint household vinegar to 1 gallon of clean water. Repeat until the surface is hard, rinse with clear water and allow to dry.

### **Wood:**

Sand any exposed wood to a fresh surface. Patch all holes and imperfections with a wood filler or putty and sand smooth.

## CAUTIONS

For interior use only.  
Protect from freezing.  
Non-Photochemically reactive.

Before using, carefully read **CAUTIONS on label**.

Use only with adequate ventilation. To avoid overexposure, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air, or wear respiratory protection (**NIOSH** approved) or leave the area. Avoid contact with eyes and skin. Wash hands after using. Keep container closed when not in use. Do not transfer contents to other containers for storage.

**FIRST AID:** In case of eye contact, flush thoroughly with large amounts of water. Get medical attention if irritation persists. If swallowed, call Poison Control Center, hospital emergency room, or physician immediately. **WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. **DO NOT TAKE INTERNALLY. KEEP OUT OF THE REACH OF CHILDREN.**

INTERIOR WALL PAINT

Model: ProMar 200 ZeroVOC Interior Latex (B31 Series)

### MATERIAL/FINISH

Color: SW 7006 Extra White

Finish: Semi-Gloss

### PERFORMANCE

Best Practices: Low-VOC, UL Greenguard Certified

Quality Standards: Interior paint: Comply with Green Seal GS-11; MPI Architectural Painting Specification Manual; 40 CFR, Part 59, Subpart D 2001, National Volatile Organic Compound Emission Standards for Architectural Coatings

### MISCELLANEOUS

Eco-Feature(s) \*as per manufacturer: Formulated without lead, mercury or chromates.

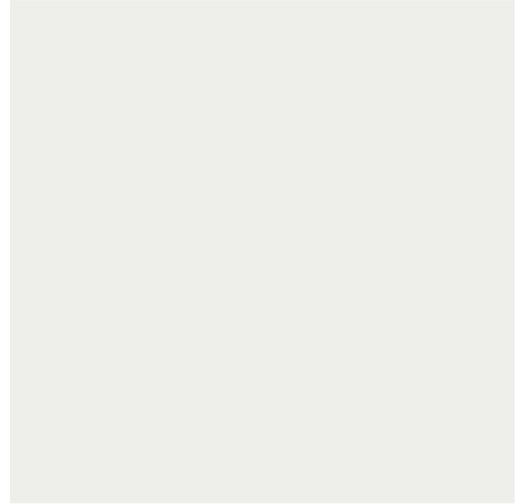

Lead Time: Standard lead times are 3-5 days from receipt of purchase order. Lead time should be confirmed by the manufacturer.

Warranty: Limited Lifetime

### NOTES

Manufacturer Data Sheet: <https://tinyurl.com/3f98z49a>

Special Instructions: Primer, undercoat, block filler, finish coat(s) are to be compatible and of the same manufacturer. All primers and undercoats are to be tinted to 50% lighter than the selected and approved finish coat color. All finish coats are to be tinted 25% darker than the primer coat until approved finish coat color is achieved. When the color schedule calls for the use of DEEP TONES (interior and/or exterior), it is the responsibility of the painting contractor to utilize the appropriate Deep Base Primers as manufactured by the painting company for use on the substrate for which they are intended. Required Wall Finish Levels: All walls to receive VWC are to have a Level 3 (minimum) Gypsum Board Finish. All walls to receive Paint (or light to medium weight wall covering)

---

are to have a Level 4 Gypsum Board Finish. All walls to receive Gloss, Enamel Paint, or Murals to have a Level 5 Gypsum Board Finish.

When the color schedule calls for the use of DEEP TONES (interior and/or exterior), it is the responsibility of the painting contractor to utilize the appropriate Deep Base Primers as manufactured by the painting company for use on the substrate for which they are intended. Required Wall Finish Levels: All walls to receive VWC are to have a Level 3 (minimum) Gypsum Board Finish. All walls to receive Paint (or light to medium weight wall covering) are to have a Level 4 Gypsum Board Finish. All walls to receive Gloss, Enamel Paint, or Murals to have a Level 5 Gypsum Board Finish.

# ProMar® 200 Zero V.O.C. Interior Latex Semi-Gloss

B31-Series

**SHERWIN  
WILLIAMS®**

## CHARACTERISTICS

**ProMar® 200 Zero V.O.C. Interior Latex Semi-Gloss** is a durable, professional quality, interior vinyl acrylic finish for use on walls, ceilings, and trim of primed plaster, wallboard, wood, masonry, and primed metal.

**Color:** Most Colors  
To optimize hide and color development, always use the recommended P-Shadow primer.

**Coverage:** 350-400 sq. ft. per gallon  
@ 4 mils wet  
1.5 mils dry

**Drying Time, @ 77° F, 50% RH:**  
Touch: 1 Hour  
Recoat: 4 Hours

Drying and recoat times are temperature, humidity, and film thickness dependent.

**Finish:** 25-35 units @ 85°

### Tinting with CCE only:

Base:	oz. per gallon:	Strength:
High Ref White	0-6	SherColor
Extra White	0-7	SherColor
Deep Base	4-12	SherColor
Ultradeep Base	10-12	SherColor
Real Red	0-12	SherColor
Bright Yellow	0-12	SherColor
Dover White		

**Do Not Tint**

### Extra White B31W12651

(may vary by color)

### V.O.C. (less exempt solvents):

Less than 50 grams per litre; 0.42 lbs. per gallon  
As per 40 CFR 59.406

**Volume Solids:** 38 ±2%  
**Weight Solids:** 50 ±2%  
**Weight per Gallon:** 10.30 lbs  
**Flash Point:** N.A.  
**Vehicle Type:** Vinyl Acrylic  
**Shelf Life:** 36 months, unopened  
**WVP Perms (US):** 85.75 grains/(hr ft2 in Hg)

### Anti-microbial

This product contains agents which inhibit the growth of mold and mildew on the surface of this paint film.

## COMPLIANCE

As of 06/29/2023, Complies with:

<b>OTC</b>	Yes
<b>OTC Phase II</b>	Yes
<b>S.C.A.Q.M.D.</b>	Yes
<b>CARB</b>	Yes
<b>CARB SCM 2007</b>	Yes
<b>CARB SCM 2020</b>	Yes
<b>Canada</b>	Yes
<b>LEED® v4 &amp; v4.1 Emissions</b>	Yes
<b>LEED® v4 &amp; v4.1 V.O.C.</b>	Yes
<b>EPD-NSF® Certified</b>	Yes
<b>MIR-Manufacturer Inventory</b>	Yes
<b>MPI®</b>	Yes

## APPLICATION

Apply at temperatures above 50°F  
No reduction needed.

**Brush:**  
Use a nylon-polyester brush.

**Roller:**  
Use a 3/8 to 3/4 inch nap synthetic cover.

For specific brushes and rollers, please refer to our Brush and Roller Guide on [Sherwin-williams.com](http://Sherwin-williams.com)

**Spray - Airless:**  
Pressure: 2000 p.s.i.  
Tip: .017-.021 inch

## APPLICATION TIPS

Make sure product is completely agitated (mechanically or manually) before use.

Priming and application of two coats at the recommended film thickness can help where hiding of a previous coating or application to new drywall is a factor.

Using the same method of application and batch to touch up with as that originally used will help improve touch up.

When original application was by spray, preconditioning of touch up paint by running it through the spray tip will help touch up appearance.

## SPECIFICATIONS

**Block:**  
1 coat ConFlex Block Filler\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Drywall:**  
1 coat ProMar 200 Zero V.O.C. Latex Primer  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Masonry:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Plaster:**  
1 coat Loxon Concrete & Masonry Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

**Wood:**  
1 coat Premium Wall & Wood Primer\*  
2 coats ProMar 200 Zero V.O.C. Interior Latex

\*These primers contain less than 50 grams per litre V.O.C.

Other primers may be appropriate.

When repainting involves a drastic color change, a coat of primer will improve the hiding performance of the topcoat color.

# ProMar<sup>®</sup> 200 Zero V.O.C. Interior Latex Semi-Gloss

## SURFACE PREPARATION

**WARNING!** If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a **NIOSH**-approved respirator to control lead exposure. Clean up carefully with a **HEPA** vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at **1-800-424-LEAD** or log on to **www.epa.gov/lead**.

Remove all surface contamination by washing with an appropriate cleaner, rinse thoroughly and allow to dry. Existing peeled or checked paint should be scraped and sanded to a sound surface. Glossy surfaces should be sanded dull. Stains from water, smoke, ink, pencil, grease, etc. should be sealed with the appropriate primer-sealer. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

### **Caulking:**

Gaps between walls, ceiling, crown moldings, and other interior trim can be filled with the appropriate caulk after priming the surface.

### **Drywall:**

Fill cracks and holes with patching paste-spackle and sand smooth. Joint compounds must be cured and sanded smooth. Remove all sanding dust.

### **Masonry, Concrete, Cement, Block:**

All new surfaces must be cured according to the supplier's recommendations – usually about 30 days. Remove all form release and curing agents. Rough surfaces can be filled to provide a smooth surface. If painting cannot wait 30 days, allow the surface to cure 7 days and prime the surface with Loxon Concrete & Masonry Primer.

## SURFACE PREPARATION

### **Mildew:**

Prior to attempting to remove mildew, it is always recommended to test any cleaner on a small, inconspicuous area prior to use. Bleach and bleaching type cleaners may damage or discolor existing paint films. Bleach alternative cleaning solutions may be advised. Mildew may be removed before painting by washing with a solution of 1 part liquid bleach and 3 parts clean water. Apply the solution and scrub the mildewed area. Allow the solution to remain on the surface for 10 minutes. Rinse thoroughly with clean water and allow the surface to dry before painting. Wear protective eyewear, waterproof gloves, and protective clothing. Quickly wash off any of the mixture that comes in contact with your skin. Do not add detergents or ammonia to the bleach-water solution.

### **Plaster:**

Bare plaster must be cured and hard. Textured, soft, porous, or powdery plaster should be treated with a solution of 1 pint household vinegar to 1 gallon of clean water. Repeat until the surface is hard, rinse with clear water and allow to dry.

### **Wood:**

Sand any exposed wood to a fresh surface. Patch all holes and imperfections with a wood filler or putty and sand smooth.

## CAUTIONS

For interior use only.  
Protect from freezing.  
Non-Photochemically reactive.

Before using, carefully read **CAUTIONS on label**.

Use only with adequate ventilation. To avoid overexposure, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air, or wear respiratory protection (**NIOSH** approved) or leave the area. Avoid contact with eyes and skin. Wash hands after using. Keep container closed when not in use. Do not transfer contents to other containers for storage.

**FIRST AID:** In case of eye contact, flush thoroughly with large amounts of water. Get medical attention if irritation persists. If swallowed, call Poison Control Center, hospital emergency room, or physician immediately. **WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. **DO NOT TAKE INTERNALLY. KEEP OUT OF THE REACH OF CHILDREN.**

## Zero V.O.C. Interior Latex Primer

B28W02600 White

**SHERWIN  
WILLIAMS.**

### CHARACTERISTICS

**ProMar 200 Zero V.O.C. Interior Latex Primer** is a professional quality, interior vinyl acrylic primer.

This primer has been designed for use with the **ProMar Series Interior Latex topcoats** providing a complete system.

#### For use on these interior surfaces:

- Wood
- Drywall
- Plaster
- Masonry
- Primed Metal
- Previously painted surfaces

**Color:** White  
For best topcoat color development, use the recommended "P"-shade primer. Check color before use.

**Coverage:** 400 sq.ft.per gallon  
@ 4.0 mils wet;  
1.0 mils dry

Drying and recoat times are temperature, humidity, and film thickness dependent

#### Drying Time, @ 77°F, 50% RH:

**Touch:** 1 hour  
**Recoat:** 4 hour

**Finish:** 0-5 units @85°

#### Tinting: Requires ColorCast Ecotoner for tinting.

For best topcoat color development, use the recommended "P"-shade primer. If desired, up to 4 oz per gallon of ColorCast Ecotoner can be used to approximate the topcoat color. Check color before use.

#### White B28W02600

#### V.O.C. (less exempt solvents):

less than 50 grams per litre; 42 lbs. per gallon  
As per 40 CFR 59.406

**Volume Solids:** 26 ± 2%  
**Weight Solids:** 43 ± 2%  
**Weight per Gallon:** 10.77 lbs  
**Flash Point:** N.A.  
**Vehicle Type:** Vinyl acrylic  
**Shelf Life:** 36 months unopened

#### WVP Perms (US):

135.65 ± 5.07 perm grains/(hr ft<sup>2</sup> in Hg)

### COMPLIANCE

As of 07/13/2020, Complies with:

OTC	Yes
OTC Phase II	Yes
SCAQMD	Yes
CARB	Yes
CARB SCM 2007	Yes
Canada	Yes
LEED® v4 & v4.1 Emissions	Yes
LEED® v4 & v4.1 V.O.C.	Yes
EPD-NSF® Certified	Yes
MIR-Product Lens Certified	Yes
MPI®	Yes

### APPLICATION

No reduction necessary.

Apply at temperatures above 50°F.

**Brush:**  
Use a nylon-polyester brush

**Roller:**  
Use a nap synthetic cover,

For specific brushes and rollers, please refer to our Brush and Roller Guide on [sherwin-williams.com](http://sherwin-williams.com)

**Spray—Airless:**  
Pressure 2000 p.s.i.  
Tip .017-.021 inch

### APPLICATION TIPS

When spot priming on some surfaces, a non-uniform appearance of the final coat may result, due to differences in holdout between primed and unprimed areas. To avoid this, prime the entire surface rather than spot priming.

For optimal performance, this primer must be topcoated with a latex, alkyd-oil, water based epoxy, or solvent based epoxy coating on architectural applications.

### SPECIFICATIONS

#### Drywall:

1 coat ProMar 200 Zero V.O.C. Latex Primer  
2 coats Of appropriate finishes

#### Previously Painted:

1 coat ProMar 200 Zero V.O.C. Latex Primer  
1-2 coats Of appropriate finishes

# ProMar® 200

## Zero V.O.C. Interior Latex Primer

### SURFACE PREPARATION

**WARNING!** Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (**NIOSH** approved) and proper containment and cleanup. For more information, call the National Lead Information Center at **1-800-424-LEAD** (in US) or contact your local health authority.

Remove all surface contamination by washing with an appropriate cleaner, rinse thoroughly and allow to dry. Existing peeled or checked paint should be scraped and sanded to a sound surface. Glossy surfaces should be sanded dull. Stains from water, smoke, ink, pencil, grease, etc. should be sealed with the appropriate primer-sealer. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

**Caulking** - Gaps between walls, ceilings, crown moldings, and other interior trim can be filled with the appropriate caulk after priming the surface.

**Drywall** - Fill cracks and nail holes with patching paste-spackle and sand smooth. Joint compounds must be cured and sanded smooth. Remove all sanding dust.

**Masonry, Concrete, Cement, Block** - All new surfaces must be cured according to the supplier's recommendations—usually about 30 days. Remove all form release and curing agents. Rough surfaces can be filled to provide a smooth surface. If painting cannot wait 30 days, allow the surface to cure 7 days and prime the surface with Loxon Concrete & Masonry Primer.

**Plaster** - Bare plaster must be cured and hard. Textured, soft, porous, or powdery plaster should be treated with a solution of 1 pint household vinegar to 1 gallon of water. Repeat until the surface is hard, rinse with clear water and allow to dry.

### SURFACE PREPARATION

**Mildew** - Prior to attempting to remove mildew, it is always recommended to test any cleaner on a small, inconspicuous area prior to use. Bleach and bleaching type cleaners may damage or discolor existing paint films. Bleach alternative cleaning solutions may be advised.

Mildew may be removed before painting by washing with a solution of 1 part liquid bleach and 3 parts water. Apply the solution and scrub the mildewed area. Allow the solution to remain on the surface for 10 minutes. Rinse thoroughly with water and allow the surface to dry before painting. Wear protective eyewear, waterproof gloves, and protective clothing. Quickly wash off any of the mixture that comes in contact with your skin. Do not add detergents or ammonia to the bleach/water solution.

### CAUTIONS

For interior use only.

Protect from freezing.

Non-photochemically reactive.

Not for use under wallpaper.

Before using, carefully read **CAUTIONS on label**

**CRYSTALLINE SILICA:** Use only with adequate ventilation. To avoid overexposure, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air, or wear respiratory protection (**NIOSH** approved) or leave the area. Adequate ventilation required when sanding or abrading the dried film. If adequate ventilation cannot be provided wear an approved particulate respirator (**NIOSH** approved). Follow respirator manufacturer's directions for respirator use. Avoid contact with eyes and skin. Wash hands after using. Keep container closed when not in use. Do not transfer contents to other containers for storage. **FIRST AID:** In case of eye contact, flush thoroughly with large amounts of water. Get medical attention if irritation persists. If swallowed, call Poison Control Center, hospital emergency room, or physician immediately. **DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE.** Abrading or sanding of the dry film may release crystalline silica which has been shown to cause lung damage and cancer under long term exposure. **WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. **DO NOT TAKE INTERNALLY. KEEP OUT OF THE REACH OF CHILDREN.**

## APPLICATIONS

	Target DCOF wet	Suitable
Dry & Level – Interior Floor	N/A	
Wet & Level – Interior Floor	≥ 0.42	
Shower Floors (Residential or Light Commercial)	≥ 0.42	
Exterior Floor Applications (including pool decking & other wet areas with minimal footwear)	≥ 0.60	
Ramps & Inclines	≥ 0.65	
Walls/Backsplashes	N/A	✓
Countertops	N/A	✓*
Pool Linings	N/A	✓

A DCOF value of ≥0.42 is the standard for tiles specified for level interior spaces expected to be walked upon when wet, as stated in ANSI A137.1-A326.3. For more information about DCOF and the DCOF AcuTest™, visit [daltile.com/DCOF](http://daltile.com/DCOF).

## APPLICATION NOTES:

Suitable for exterior applications in non-freezing climates, when proper installation methods are followed.

\* Matte finishes only. No Bevel Tile. Darker colors may show scratches.

## INSTALLATION

Grout Joint Recommendation	Shade Variation
Wall: 1/16"	 Low (V1)

## PERFORMANCE CHARACTERISTICS

	ASTM#	Result
Water Absorption	C373	< 20.0%
Breaking Strength	C648	120-230 lbs
Scratch Hardness	MOHS	4.0-6.0
Chemical Resistance	C650	Resistant
Abrasion Resistance	C1027	N/A

For additional information on test results, visit us at: [daltile.com/information/TestResults](http://daltile.com/information/TestResults).

## NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.1 standards.

For additional information refer to "Factors to Consider" at: [daltile.com/Factors](http://daltile.com/Factors).

TC - Tile Ceiling

## TILE CEILING

### Acoustical Ceiling Tile

---

Manufacturer: Armstrong Building Products  
Style/Series: Cirrus Tegular 584

### Sales Rep

---

#### Primary

Maureen Cone  
Email: mmcone@armstrongceilings.com  
Office Phone: (703) 389-2701

### Attributes

---

Acoustical Ceiling Tile

Type: Mineral Fiber

#### DIMENSIONS

Width: 2'-0"  
Length: 2'-0"  
Thickness: 3/4"

#### MATERIAL/FINISH

Color: White

#### PERFORMANCE

Acoustical Performance: NRC: 0.70; CAC: 35  
Fire/Smoke Rating: Fire Class A  
Thermal Performance: R Factor: 1.9

#### MISCELLANEOUS

Lead Time: Standard lead times are 1-2 weeks from receipt of Purchase Order and Deposit. Lead time is typical and should be verified by the manufacturer.

Warranty: 30 year performance guarantee and warranty against visible sag, mold and mildew

#### CUSTOM FIELDS

#### CONTENT

Material  
Edge: 15/16" angled tegular  
Suspension: 15/16" standard Prelude  
Product: Cirrus Tegular 584  
Grid: Exposed tee  
Finish: Medium texture  
Quality Standards: NA

### Notes

---

Eco Feature(s) \*as per manufacturer: Total recycled content based

on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.

Cirrus® Beveled Tegular panels with Suprafine® 9/16" suspension system (Pgs. 287-288)

See more photos at:  
[armstrongceilings.com/photogallery](http://armstrongceilings.com/photogallery)  
 SEARCH: cirrus

Cirrus offers a medium-textured ceiling panel with excellent noise reduction and sound blocking for Total Acoustics™ performance in one product.

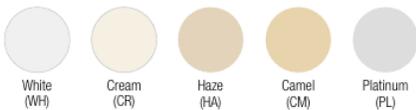

**KEY SELECTION ATTRIBUTES**

- Get total noise control and design flexibility with Total Acoustics™ ceiling panels: NRC + CAC = Total Acoustics™ performance
- Refined visual
- Excellent combination of acoustical performance: NRC (up to 0.75) and CAC (35)
- High NRC items feature Articulation Class (170) helpful to control sound over wall partitions
- Ceiling-2-Ceiling™ post-consumer recycled content options. Items 589HRC, 539HRC, 584HRC, 535HRC. 71% pre-consumer; 15% post-consumer
- USDA Certified Biobased Product – 94%

**TYPICAL APPLICATIONS**

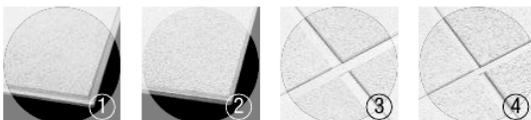

- Offices – closed spaces for privacy and confidentiality; open spaces for focus, collaboration, and teaming
- Healthcare – assists in addressing HIPAA, HCAHPS, and FGI acoustical requirements
- Conference rooms
- Lobbies
- Libraries/media centers
- Computer rooms

**COLORS** Due to printing limitations, shade may vary from actual product.

Items 584, 589 are available in colors. All other items are available in White only. Colored ceilings are dye-lotted and should be segregated by dye lot. Do not mix.

**DETAILS** (Other Suspension Systems compatible. Refer to listing on page 162.)

<sup>1</sup> Total Acoustics™ ceiling panels have an ideal combination of noise reduction and sound-blocking performance in one product. **GOOD** (NRC 0.60-0.65; CAC 35+) **BETTER** (NRC 0.70-0.75; CAC 35+) **BEST** (NRC 0.80+; CAC 35+)

## SUSPENSION SYSTEMS

## PHYSICAL DATA

**Material**  
Wet-formed mineral fiber

**Surface Finish**  
Factory-applied latex paint

**Fire Performance**  
ASTM E84 and CAN/ULC S102 surface burning characteristics. Flame Spread Index 25 or less. Smoke Developed Index 50 or less (UL labeled.)

**ASTM E1264 Classification**  
Type III, Form 1, Pattern E I  
Fire Class A

**Humidity/Sag Resistance**  
HumiGuard® Plus ceiling panels maintain superior sag resistance. Recommended for areas subject to high humidity, up to, but not including, standing water and outdoor applications.

**Anti-Mold/Mildew**  
Ceiling panels with BioBlock® coating contain a mold-inhibiting agent that resists the growth of mold and mildew.

**VOC Emissions**  
Third-party certified compliant with California Department of Public Health CDPH/EHLB/Standard Method Version 1.1, 2010. This standard is the guideline for low emissions in LEED. CalGreen Title 24, ANSI/ASHRAE/USGBC/IES Standard 189; ANSI/GBI Green Building Assessment Protocol.

**Acoustical Performance**  
CAC testing conducted using Silhouette suspension system.

**Primary (Embodied) Energy**  
See all LCA information on our EPD's.

**High Recycled Content**  
Contains greater than 50% total recycled content. Total recycled content based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.

**Insulation Value**  
R Factor – 1.9 (BTU units)  
R Factor – 0.33 (Watts units)

**30-Year Performance Guarantee & Warranty**  
When installed with Armstrong® Suspension System. Details at armstrongceilings.com/warranty

**Weight; Square Feet/Carton**  
551 – 1.21 lbs/SF; 48 SF/ctn  
556, 558 – 1.50 lbs/SF; 40 SF/ctn  
568 – 1.25 lbs/SF; 48 SF/ctn

**Minimum Order Quantity**  
1 carton

**Metric Items Available**  
551M, 558M, 568M – Metric items are subject to extended lead times and minimum quantities. Contact your representative for more details.

## SUSPENSION SYSTEMS

## PHYSICAL DATA

**Material**  
Wet-formed mineral fiber

**Surface Finish**  
Factory-applied latex paint

**Fire Performance**  
ASTM E84 and CAN/ULC S102 surface burning characteristics. Flame Spread Index 25 or less. Smoke Developed Index 50 or less (UL labeled).  
Fire Guard™: A fire-resistive ceiling when used in applicable UL assemblies

**ASTM E1264 Classification**  
Type III, Form 1, Pattern E I  
Fire Class A

**Humidity/Sag Resistance**  
HumiGuard® Plus ceiling panels maintain superior sag resistance. Recommended for areas subject to high humidity, up to, but not including, standing water and outdoor applications. Excludes items 535, 539, 581, 583.

**Anti-Mold/Mildew**  
Ceiling panels with BioBlock® coating contain a mold-inhibiting agent that resists the growth of mold and mildew.

**VOC Emissions**  
Third-party certified compliant with California Department of Public Health CDPH/EHLB/Standard Method Version 1.1, 2010. This standard is the guideline for low emissions in LEED. CalGreen Title 24, ANSI/ASHRAE/USGBC/IES Standard 189; ANSI/GBI Green Building Assessment Protocol.

**Acoustical Performance**  
CAC testing conducted using Silhouette suspension system.

**Primary (Embodied) Energy**  
See all LCA information on our EPD's.

**High Recycled Content**  
Contains greater than 50% total recycled content. Total recycled content based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.

**Insulation Value**  
R Factor – 1.9 (BTU units)  
R Factor – 0.33 (Watts units)

**30-Year Performance Guarantee & Warranty**  
When installed with Armstrong® Suspension System. Details at armstrongceilings.com/warranty

**Weight; Square Feet/Carton**  
534, 538, 572, 576 – 1.38 lbs/SF; 40 SF/ctn  
535, 539, 581, 583 – 1.21 lbs/SF; 48 SF/ctn  
577, 578 – 1.25 lbs/SF; 48 SF/ctn  
584, 589 – 1.06 lbs/SF; 48 SF/ctn

**Minimum Order Quantity**  
1 carton

**Metric Items Available**  
584M, 578M, 534M, 572M, 581M, 535M, 589M, 538M, 577M, 583M, 539M – Metric items are subject to extended lead times and minimum quantities. Contact your representative for more details.

Acoustical Ceiling Tile

Type: N/A

#### DIMENSIONS

Width: 2'-0"  
Length: 2'-0"  
Thickness: 5/8"

#### MATERIAL/FINISH

Material Composition: Wet formed mineral fiber.  
Color: White  
Finish: Smooth-textured panel with an embossed, vinyl-laminated face.

#### PERFORMANCE

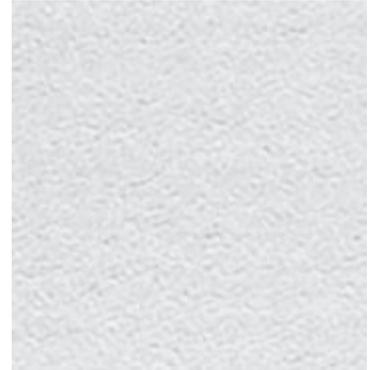

Acoustical Performance: 0-0.55 NRC, 35 CAC  
Best Practices: USDA Certified Biobased Product, 55% Recycled Content  
Fire/Smoke Rating: ASTM E-1264 Classification (Class 100: Type X, Pattern GI), ASTM E-84, Class A  
Thermal Performance: Resistance: R-1.6

#### MISCELLANEOUS

Warranty: 30 Year Limited Warranty.  
USG Donn Brand Suspension System and USG panels and tile with Climaplus performance, when used together, to be free from defects in materials and workmanship at time of manufacture.

#### CUSTOM FIELDS

Content: Wet formed mineral fiber.  
Edge: Square  
Suspension: USG Donn Brand Suspension System  
Product: Clean Room Class 100 (ISO C5) Acoustical Panels with Climaplus Performance, Item No. #56099.  
Grid: US DX/DXL

Finish: Smooth-textured panel with an embossed, vinyl-laminated face.  
Quality Standards: NA

## FEATURES AND BENEFITS

- USG Clean Room™ Class 100 and Class 10M-100M panels have an embossed, vinyl-laminated face with sealed back and edges for use in Class 100 (ISO 5) or 10M-100M (ISO 7) Clean Rooms.
- USDA Certified Biobased Product.<sup>8</sup>
- Firecode® product designed to meet life-safety codes.
- ClimaPlus™ 30-year limited system warranty against visible sag.

## APPLICATIONS

- Clean Rooms
- Laboratories
- Surgical areas/emergency rooms
- Kitchens/food prep areas (Class 100 only)

## SUBSTRATE

- Wet-formed mineral fiber

 See *USG 30-Year Limited System Warranty Commercial Applications* (SC2102).

**Maintenance**  
 Can be cleaned easily with a damp sponge, mild detergent and water. Do not use acetate, ammonia, or highly concentrated chlorine, bromide or other harsh chemicals.

**Metric sizes available**  
 Contact sales for minimum quantities and lead times.

### Notes

- For details, see LEED report tool at [usgdesignstudio.com](http://usgdesignstudio.com) or [cgcdesignstudio.com](http://cgcdesignstudio.com).
- Fire-rated items: see UL design details.
- LR values are shown as averages.
- NRC rating for USG Clean Room™ ClimaPlus™ Class 100 panels is 0.10. USG does not consider a ceiling panel to be acoustically rated if NRC is less than 0.50.
- Field-cut edges of USG Clean Room™ panels may be sealed with white latex paint.
- Clean Room-rated applications require a suspension system with gasketed tee flanges such as USG Donn® Brand CE™.
- Not intended for kitchen/food prep applications. Use unperforated product (Class 100)—item numbers 56099 and 56091.
- This product has achieved both BioPreferred initiatives: Federal Procurement Preference and Certified Product Labeling. See the complete listing of all USG ceiling panels on [biopreferred.gov](http://biopreferred.gov) website.

COLOR WHEEL™ COLLECTION – GLAZED CERAMIC

## A Spectacular Spectrum

The element of color is visually represented in Color Wheel™. This vibrant collection offers a wide spectrum of colorful selections from bright and pigmented hues to neutral and earthy tones. A favorite of artists and designers, Color Wheel provides the perfect palette to inspire the imagination.

### • COLOR SCHEME

- Eight rich semi-gloss colorful accents
- Plus, eight coordinating neutral tones in semi-gloss and matte finishes

### • ARTISTIC INSPIRATIONS

- Stylish shapes from unique linear sizes to exciting mosaic designs
- With endless design opportunities, this collection is a perfect fit for residential and commercial applications

For additional information on test results, visit us at:  
[daltile.com/information/TestResults](http://daltile.com/information/TestResults).

## NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.1 standards.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

For additional information refer to "Factors to Consider" at:  
[daltile.com/Factors](http://daltile.com/Factors).

APPLICATIONS

	Target DCOF wet	Suitable
Dry & Level – Interior Floor	N/A	✓*
Wet & Level – Interior Floor	≥ 0.42	✓*
Shower Floors (Residential or Light Commercial)	≥ 0.42	✓*
Exterior Floor Applications (including patios, pool decking & other wet areas with minimal footwear)	≥ 0.60	
Ramps & Inclines	≥ 0.65	
Walls/Backsplashes	N/A	✓
Countertops	N/A	✓**
Pool Linings	N/A	✓

A DCOF value of ≥0.42 is the standard for tiles specified for level interior spaces expected to be walked upon when wet, as stated in ANSI A137.1-A326.3. For more information about DCOF and the DCOF AcuTest™, visit [daltile.com/DCOF](http://daltile.com/DCOF).

APPLICATION NOTES:

Mosaics suitable for exterior applications in non-freezing climates, when proper installation methods are followed.

\* Matte Mosaics Only

† Darker colors may show scratches

DURABILITY

Floor Surface Wear Resistance

1 Residential Bathrooms	3 All Residential / Light Commercial
2 All Residential Areas	4 All Residential / Commercial

Note: Matte colors only.

POST-CONSUMER RECYCLED MATERIALS

PRE-CONSUMER RECYCLED MATERIALS

147VS	2" T-Mold	2.2 mm	8.0 mm	4.2 mm	10 mm	2.2 mm	8.0 mm	4.2 mm	10 mm

## THRESHOLDS

### Resilient Threshold

Manufacturer: Tarkett / Johnsonite, a Tarkett Group Company  
Style/Series: VT-XX-M2

### Sales Rep

#### Primary

Elle Pechiney  
Email: elle.pechiney@tarkett.com  
Office Phone: 301-974-2249

### Attributes

Resilient Threshold

Type: Resilient Threshold

#### DIMENSIONS

Width: 5-1/2"  
Length: 36"  
Height: 1/2"

#### MATERIAL/FINISH

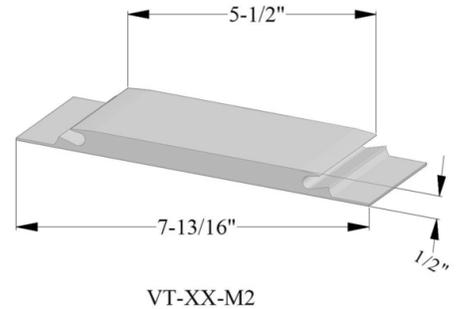

Material Composition: Poly Vinyl Chloride  
Color: 40 Black  
Finish: Not Applicable

#### PERFORMANCE

Best Practices: 14% Pre Consumer recycled content; FloorScore certified  
Fire/Smoke Rating: Critical radiant flux: Class 1 (0.45 watts per square centimeter) per ASTM E648  
Quality Standards: ASTM F1066 Standard Specification for Vinyl Composition Floor Tile; ASTM E648 Standard Test Method for Critical Radiant Flux of Floor-Covering Systems Using a Radiant Heat Energy Source; ASTM F710 Standard Practice for Preparing Concrete Floors to Receive Resilient Flooring

#### MISCELLANEOUS

Lead Time: Standard lead times are 2-3 weeks upon receipt of purchase order and deposit. Lead times are typical and should be verified by manufacturer at time of order.  
Warranty: Limited 2 year commercial warranty for manufacturing defects : Johnsonite warrants from the date of purchase order.

### Threshold for Carpet Mouldings

#### 1. PROPRIETARY PRODUCT/MANUFACTURER

1.1 Proprietary Product: Carpet Threshold Mouldings - A.D.A. Compliant Patent Pending

1.2 Manufacturer:

Johnsonite, Inc.,  
16910 Munn Road  
Chagrin Falls, Ohio 44023  
Phone: (800) 899-8916  
(440) 543-8916  
Fax: (440) 543-8920  
Tech: Ext 297  
Samples: Ext 299  
Web: [www.johnsonite.com](http://www.johnsonite.com)  
E-mail: [info@johnsonite.com](mailto:info@johnsonite.com)

1.3 Proprietary Product Description

1.3.1 **Construction:** Johnsonite Carpet Threshold Mouldings are manufactured from a homogeneous composition of polyvinyl chloride (PVC), high quality additives, and colorants. All Carpet Threshold Mouldings comply with A.D.A. requirements of Section 4.5.2 Changes of Level. Standard formulation exceeds ASTM E 648 Class 1 Flammability requirements.

Johnsonite Carpet Threshold Mouldings are designed for interior applications only and not recommended for environments where the product will be exposed to animal fats, vegetable oils, or petroleum based materials. (i.e.: commercial kitchens)

1.3.2 Styles

**VT-XX-M2:** 5-1/2" (14 cm) wide by 1/2" (12.7 mm) thick threshold with tack strip mounting wings and carpet receiver openings on both ends of the profile, 7.8" (19.8 cm) overall width

**VT-XX-M6:** 1-3/4" (4.5 cm) wide by 1/2" (12.7 mm) thick threshold with tack strip mounting wings and carpet receiver openings on both ends of the profile, 4.05" (10.3 cm) overall width

1.3.3 **Physical Characteristics**

Length: 36" (.91 m)

Packaging: VT-XX-M2: 6 lengths per carton.

VT-XX-M6: 12 lengths per carton.

#### 2. PRODUCT PERFORMANCE AND TECHNICAL DATA

2.1 Hardness: ASTM D 2240 - Not less than 85 Shore A

2.2 Abrasion Resistance: ASTM D 3389 - 0.22 mg/cycle

2.3 Slip Resistance: ASTM D 2047 - Exceeds Federal Standards and ADA recommendations of .6 for flat surfaces

2.4 Fire Resistance:

2.4.1 ASTM E 648/NFPA 253 (Critical Radiant Flux) - Class 1

#### 3. INSTALLATION

3.1 The installation of Johnsonite Carpet Threshold Mouldings should not begin until the work of all other trades has been completed, especially overhead trades. Areas to receive carpet threshold mouldings shall be clean, fully enclosed, weathertight, and maintained at a uniform temperature of at least 65°F for 24 hours before, during, and after the installation is completed. The threshold mouldings and adhesives shall be conditioned in the same manner. The floor surface shall be smooth, flat to within 1/8" in 10 ft., permanently dry, clean and free of all foreign material, such as dust, paint, grease, oils, solvents, curing and hardening compounds, sealers, asphalt, and old adhesive residue. Do not install on exterior surfaces subject to weather. Carpet Threshold Mouldings shall be securely adhered to the floor utilizing the manufacturer's recommended adhesive. Carpet Threshold Mouldings shall be rolled, with a J-hand roller, after installation, to ensure proper bonding.

3.2 **Adhesives:**

Porous and Nonporous Substrates

Johnsonite #945 **Contact Bond Adhesive**

Application: Brush or roller

Coverage: Approximately 360 sq. ft/gallon

**Installation Manual:** Refer to Johnsonite Carpet Threshold Mouldings Installation Instructions for complete installation details.

#### 4. AVAILABILITY AND COST

4.1 Available through authorized Johnsonite distributors nationwide.

#### 5. WARRANTY

5.1 Limited 1 year warranty. For complete details, contact Johnsonite or an authorized Johnsonite distributor.

#### 6. MAINTENANCE

6.1 Refer to Johnsonite Carpet Threshold Mouldings Installation Instructions for complete maintenance details.

#### 7. TECHNICAL SERVICES

7.1 Samples: Submittal samples for verification and approval available upon request from Johnsonite. Samples shall be submitted in compliance with the requirements of the Contract Documents. Accepted and approved samples shall constitute the standard materials which represent materials installed on the project.

7.2 For current Installation and Maintenance Instructions, Product Specifications, and other technical data, visit us on the web at [www.johnsonite.com](http://www.johnsonite.com) or contact Johnsonite at 1-800-899-8916.

## INNOVATIVE SOLUTIONS FOR CERAMIC AND STONE TILE

### FINISHING, EDGE PROTECTION, AND TRANSITIONS

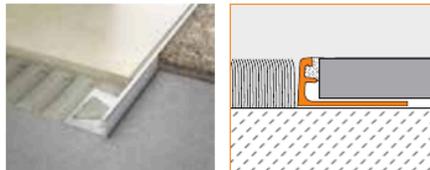

Because ceramic and stone tiles are inherently brittle, their exposed edges can chip and crack if left unprotected. Transitions between floor surfaces and at thresholds are particularly vulnerable to damage. Schluter-Systems offers a variety of profiles to provide edge protection and transitioning at thresholds and between adjacent surfaces, resulting in durable, maintenance-free tiled coverings. The profiles can be grouped into two categories: transitions between same-height surfaces and transitions between different-height surfaces

### Application and Function

#### Same-height Transitions

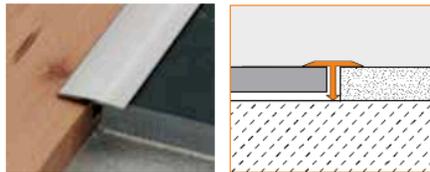

**1.1 Schluter®-SCHIENE** is designed to provide edging for tile coverings. Typical applications include edge protection where tile is bordered by carpet, at expansion joints, or as a decorative edging for stairs. SCHIENE is available in stainless steel, solid brass, aluminum, and anodized aluminum. The profile features a trapezoid-perforated anchoring leg, which is secured in the mortar bond coat beneath the tile, and an 87° sloped vertical wall section that transfers point loads to the substrate and surface covering while protecting tile edges from damage. SCHIENE, in solid brass, aluminum, and anodized aluminum, features a 5° sloped top flange and fillet at the anchoring leg/vertical section interface to enhance edge protection by reducing stresses on the tile, and, in sizes greater than 1/4" (6 mm), features an

1.1 Schluter®-SCHIENE

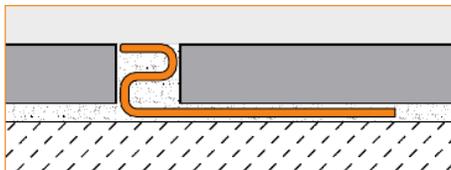

1.6 Schluter®-DECO

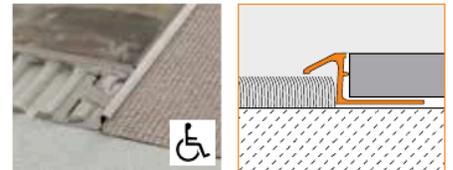

1.3 Schluter®-RENO-T

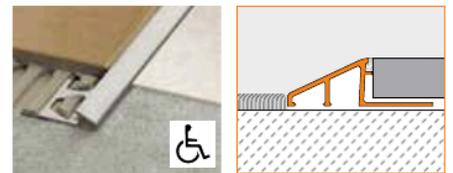

integrated joint spacer that establishes a defined joint cavity between the tile and the profile. The anchoring leg of SCHIENE, in all materials, is available with a special radius perforation "R" so that the profile can be used to form curves.

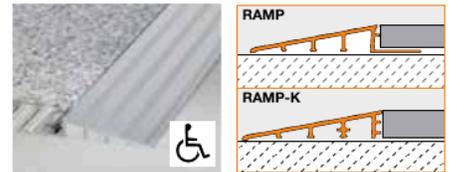

**1.6 Schluter®-DECO** is designed to provide decorative lines within tile coverings and edge protection at transitions from tile coverings to other same-height surface coverings, such as wood or carpet. The profile is available in stainless steel, solid brass, chrome-plated

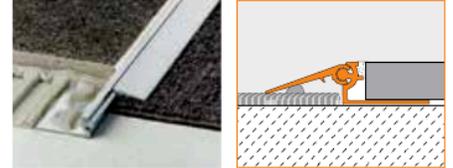

1.4 Schluter®-RENO-TK

1.2 Schluter®-RENO-U

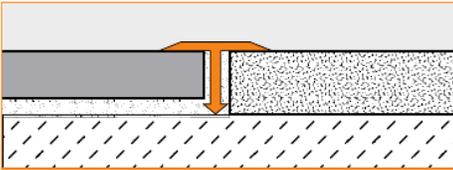

1.8 Schluter®-RENO-RAMP/K

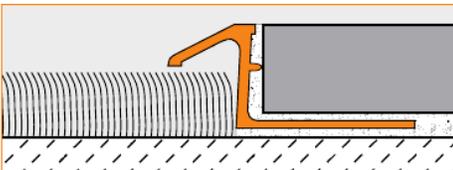

1.7 Schluter®-RENO-V

solid brass, and anodized aluminum. DECO features a trapezoid-perforated anchoring leg, which is secured in the mortar bond coat beneath the tile, and a 1/4" (6 mm)-wide visible surface that meets the high aesthetic requirements of showrooms, lobbies, galleries, exhibition booths, etc. The anchoring leg of DECO, in solid brass, chrome-plated solid brass, and anodized aluminum, is available with a special radius perforation "R" so that the profile can be used to form curves. DECO in chrome-plated brass requires a relatively large bending radius.

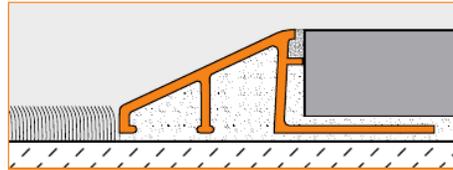

**1.3 Schluter®-RENO-T** is designed to provide transitions between existing same-height, hard-surface floor coverings (e.g., ceramic tile or natural stone, parquet flooring, concrete pavers, laminate, etc.), primarily in retrofit applications. The profile is available in stainless steel, solid brass, and anodized aluminum. RENO-T is installed within the existing joint cavity and overlaps adjoining surface materials, thus preventing edges from becoming damaged when subjected to mechanical stress. RENO-T, in brass and anodized aluminum size 9/14, is flexible in the lateral direction and can be used in curved applications.

### Different-height Transitions

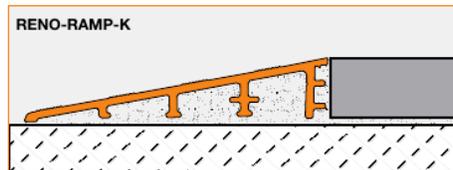

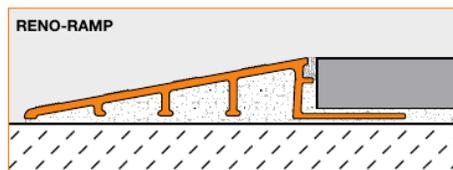

**1.4 Schluter®-RENO-TK** is designed to provide a smooth transition from tile coverings to floor coverings at lower elevations, typically carpet. The profile is available in stainless steel, solid brass, and anodized aluminum. RENO-TK features a trapezoid-perforated anchoring leg, which is secured in the mortar bond coat beneath the tile, and a sloped surface to eliminate trip hazards and protect tile edges. The 1/4" (6 mm) channel beneath the sloped flange of the profile hides and protects the cut edge of lower adjoining surface coverings. All sizes of the RENO-TK are compliant with the Americans with Disabilities Act (ADA). RENO-TK, in anodized aluminum, features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile. The anchoring leg of RENO-TK, in solid brass and anodized aluminum, sizes 60 to 100, is available with a special radius perforation "R" so that the profile can be used to form curves.

**1.2 Schluter®-RENO-U** is designed to provide a smooth transition between tile coverings and floor coverings at lower elevations or finished concrete. The profile is available in stainless steel, solid brass, and anodized aluminum. RENO-U features a trapezoid-perforated anchoring leg, which is secured in the mortar bond coat beneath the tile, and a sloped surface (approximately 25°) that eliminates trip hazards and protects tile edges. The leading edge of the profile abuts the lower surface covering, typically VCT. RENO-U, in aluminum, features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile. In installations where the leading edge abuts a lower surface covering, all sizes of RENO-U, except the 3/4" (20 mm) and 11/16" (17.5 mm), are compliant with the Americans with Disabilities Act (ADA). In installations where the leading edge rests on top of the lower floor covering (e.g., finished concrete), the 3/4" (20 mm), 11/16" (17.5 mm), and 9/16" (15 mm) sizes are not ADA-compliant.

**Note:** When using Schluter® uncoupling membranes with RENO-U profiles, factor in the thickness of the membrane over the anchoring leg when selecting the profile height.

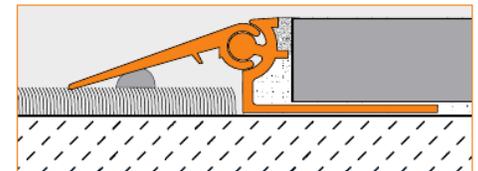

**1.8 Schluter®-RENO-RAMP** is designed to provide a smooth transition between tile coverings and floor coverings at lower elevations or finished concrete, particularly in commercial applications where wheel carts are used (e.g., bakeries, hospitals, etc.). The profile is available in anodized aluminum. RENO-RAMP features a trapezoid-perforated

anchoring leg, which is secured in the mortar bond coat beneath the tile, and a sloped transition surface that terminates at the height of the tile edge. The profile protects tile edges and provides a sloped surface to eliminate trip hazards and allow easy access for wheel carts. RENO-RAMP features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile.

**Note:** When using Schluter® uncoupling membranes with RENO-RAMP profiles, factor in the thickness of the membrane over the anchoring leg when selecting the profile height.

**Schluter®-RENO-RAMP-K** is a variant of the profile without an anchoring leg. RENO-RAMP-K is installed adjacent to existing floor coverings, e.g., retrofitting between existing floor coverings and bare concrete without having to disturb the existing flooring. All sizes of RENO-RAMP, except sizes 9/16" (15 mm) and 3/4" (20 mm), are compliant with the Americans with Disabilities Act (ADA).

**1.7 Schluter®-RENO-V** is designed to provide a smooth transition between tile coverings and floor coverings at lower elevations. The profile is available in anodized aluminum. RENO-V features a trapezoid-perforated anchoring leg, which is secured in the mortar bond coat beneath the tile, and a movable transition arm that allows the profile to adjust to the height of the adjacent floor covering via a ball-and-socket joint. The profile protects tile edges and provides a sloped surface to eliminate trip hazards. RENO-V features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile. RENO-V is also suitable for heavy-duty applications (e.g., entrances to garages or loading docks). In such cases, the adjustable arm is backfilled with mortar.

## Material Properties and Areas of Application

Schluter edge-protection and transition profiles are resistant to most chemicals encountered in tiled environments. In special cases, the suitability of a proposed type of profile must be verified based on the anticipated chemical, mechanical, and/or other stresses. Exceptions and special considerations are listed below:

**Stainless steel** profiles are roll-formed, resulting in a slightly different contour from those made of extruded brass or aluminum. Stainless steel can sustain high mechanical stresses and is particularly well suited for applications requiring resistance against chemicals and acids; for example in the food industry, breweries, dairies, commercial kitchens, and hospitals, as well as in residential applications. Typically, the profiles are formed using stainless steel 304 (1.4301 = V2A). For more severe chemical exposure, such as de-icing salts and chemicals used in swimming pools, we recommend the use of stainless steel 316 L (1.4404 = V4A), which offers even higher corrosion resistance than the 304. Even stainless steel cannot withstand all chemical exposures, such as hydrochloric acid, hydrofluoric acid or certain chlorine, chloride, and brine concentrations.

**Chrome-plated solid brass** is ideal for matching chrome fixtures. Surfaces must be protected against abrasion or scratching.

**Solid brass** can sustain high mechanical stresses, as well as most chemicals commonly encountered in tiled environments. Solid brass that is exposed to air will oxidize, resulting in a natural patina. If exposed to moisture or aggressive substances, heavy oxidation and spotting may occur.

**Aluminum** profiles must be tested to verify their suitability if chemical stresses are anticipated. Cementitious materials, in conjunction with moisture, become alkaline. Since aluminum is sensitive to alkaline substances, exposure to the alkali (depending on the concentration and duration of exposure) may result in corrosion (aluminum hydroxide formation). Therefore, it is important to remove mortar or grout residue from visible surfaces. In addition, ensure that the profile is solidly embedded in the setting material and that all cavities are filled to prevent the collection of alkaline water.

**Anodized aluminum** profiles feature an anodized layer that retains a uniform appearance during normal use, but is not color-stable in exterior applications. The surface is susceptible to scratching and wear and may be damaged by grout or setting material. Therefore, these materials must be removed immediately. Otherwise, the description regarding aluminum applies.

## Cutting Profiles

Observe all safety instructions and standards as directed by the cutting tool manufacturer, including protective eyewear, hearing protection, and gloves.

Always measure carefully and dry fit the profiles, corners, and connectors to ensure proper fit and alignment prior to setting tile.

**Aluminum** profiles may be cut using any of the following options:

- **Hacksaw** with a bimetal blade and the highest teeth per inch (TPI) available.
- **Variable-Speed Angle Grinder** set to the lowest speed using the Schluter®-PROCUT-TSM cutting wheel.
- **Chop saw or Miter Saw** with a non-ferrous blade.

Regardless of the cutting tool used, remove any burrs from the cut end of the profile with a file or similar before installation.

**Stainless steel** profiles may be cut using any of the following options:

- **Variable-Speed Angle Grinder** set to the lowest speed using the Schluter®-PROCUT-TSM cutting wheel.
- **Band Saw** with a metal cutting blade.

Regardless of the cutting tool used, remove any burrs from the cut end of the profile with a file or similar before installation.

## Installation

### SCHIENE, JOLLY, DECO, RENO-TK, RENO-U, RENO-RAMP, and RENO-V

1. Select the profile according to tile thickness and format.

**Note:** When using Schluter® uncoupling membranes with RENO-U and RENO-RAMP profiles, factor in the thickness of the membrane over the anchoring leg when selecting the profile height.

2. Using a notched trowel, apply thin-set mortar to the area where the profile is to be placed.

For RENO-U and RENO-RAMP, fill the cavity beneath the sloped section of the profile with thin-set mortar. Follow this step when RENO-V is used in heavy-duty applications, as well.

3. Press the perforated anchoring leg of the profile into the mortar and align.
4. Trowel additional thin-set mortar over the perforated anchoring leg to ensure full coverage and support of the tile edges.
5. Solidly embed the tiles so that the tiled surface is flush with the top of the profile; the profile should not be higher than the tiled surface, but rather up to approx. 1/32" (1 mm) lower.
6. Set the tile to the integrated joint spacer, which ensures a uniform joint of 1/16" - 1/8" (1.5 - 3 mm). For DECO and stainless steel profiles, leave a space of approximately 1/16" - 1/8" (1.5 - 3 mm).
7. Fill the joint completely with grout or setting material.
8. Remove grout or mortar residue from the visible surface of the profile.

### RENO-RAMP-K

1. Fill the cavity beneath the sloped section of the profile with thin-set mortar.
2. Using a notched trowel, apply thin-set mortar to the area where the profile is to be placed.
3. Press the profile into the mortar and abut to the adjacent floor covering. The profile should not be higher than the adjacent floor covering, but rather up to approx. 1/32" (1 mm) lower.
4. Fill the joint completely with grout or setting material.
5. Work with materials and tools that will not scratch or damage sensitive surfaces. Setting materials must be removed immediately.

### RENO-T

1. Select the profile according to joint width, to ensure proper support of the lateral crosspiece.
2. The joint cavity must be at least 3/8" (9 mm) deep and free of debris. Substances that inhibit adhesion must be removed from the sides of the joint.

- Fill the joint with elastomeric sealant such as Schluter®-KERDI-FIX or similar. Then insert the vertical leg of RENO-T in the joint so that the lateral crosspiece rests completely on the edges of the surface coverings.
- Remove any excess sealant with a suitable cleaner.

### Maintenance

Schluter edge-protection and transition profiles require no special maintenance or care and are resistant to mold and fungi. Clean profiles periodically using neutral cleaning agents.

**Stainless steel** surfaces exposed to the environment or aggressive substances should be cleaned periodically using a mild household cleaner. Regular cleaning maintains the neat appearance of stainless steel and reduces the risk of corrosion. All cleaning agents must be free of hydrochloric acid, hydrofluoric acid, and

chlorides. Stainless steel surfaces develop a sheen when treated with a chrome-polishing agent.

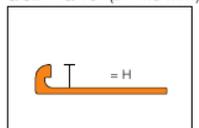

Oxidation films on exposed **solid brass** or **aluminum** can be removed by using a conventional polishing agent, but will form again.

In the case of **anodized aluminum**, **color-coated aluminum**, and **chrome-plated solid brass**, do not use abrasive cleaning agents.

## Schluter® Systems Floor Profiles 5-Year Limited Warranty

**LIMITED WARRANTY COVERAGE:** Subject to the conditions and limitations as stated in this **Schluter® Systems Floor Profiles 5-Year Limited Warranty** (the "**Limited Warranty**"), Schluter Systems warrants that its Schluter®-SCHIENE, Schluter®-JOLLY, Schluter®-RENO-TK, Schluter®-DECO, Schluter®-RENO-U, Schluter®-RENO-T, Schluter®-RENO-RAMP, Schluter®-RENO-RAMP-K, and Schluter®-RENO-V (collectively, the "**Products**") will be free from manufacturing defects and will perform as described in the Schluter Systems Floor Profiles Technical Data Sheet (collectively, the "**Written Materials**") for a period of five (5) years from the date of purchase when installed and used in accordance with the terms and conditions of the Written Materials and industry standard guidelines that are not in conflict with the Written Materials in effect at the time of installation.

For the purposes of this Limited Warranty, "**Owner**" is defined as the original end user of the property in which the Products are installed; and "**Tile Assembly**" is defined to include the Products, non-reusable flooring surfaces, and applicable setting and grouting materials.

This Limited Warranty is only applicable to installations in the United States of America and Canada. Schluter Systems is not responsible or liable under any circumstances for determining the suitability of the Products for the Owner's intended purpose. It is the responsibility of the Owner to consult with an experienced and professional installer to ensure the suitability of the Products, subfloor/substrate and all building materials in the installation and that the Written Materials are followed properly.

**RESOLUTION:** If the Products are installed and used in accordance with the terms and conditions as described hereinabove and such Products are proven defective within the applicable warranty term, the Owner's exclusive remedy and the sole obligation of Schluter Systems, at its election, shall be to (a) reinstall or replace the failed portion of the Tile Assembly or (b) pay an amount not to exceed the original square foot cost of the installation of the Tile Assembly verified to be defective. Due to conditions beyond the control of Schluter Systems (e.g., color and shade availability, discontinuation, normal wear and tear), Schluter Systems cannot guarantee or warrant an exact match to the specific tile, stone, or other flooring materials used in the original installation. In such event, substantially similar materials may be substituted.

**EXCLUSIONS FROM COVERAGE:** This Limited Warranty excludes and in no event shall Schluter Systems have any liability for any indirect, special, incidental, punitive, exemplary, or consequential damages, including lost profits, arising out of or otherwise connected to the failure of the Products or Tile Assembly, regardless of any strict liability or active or passive negligence of Schluter Systems, and regardless of legal theory, whether in contract, tort, extra-contractual or other. This Limited Warranty further excludes any loss or damage arising out of or otherwise connected to: acts of war, terrorism, fire, explosion, natural disaster, acts of God, any failure to comply with the Written Materials, inadequate subfloor/substrate, improper preparation or other failure of subfloor/substrate, faulty or negligent penetration of the Products or subfloor/substrate, intentional acts of destruction, structural failure, misuse of or failure to maintain the Products, normal wear and tear, scratches, dents, corrosion or discoloration (whether caused by excessive heat, chemical cleaning products, abrasive agents or otherwise), efflorescence and shading which are a natural occurrence with cementitious materials and are not considered a defective condition for the purposes of this Limited Warranty, variations of texture, color or shade from those on product samples, packaging materials or other marketing materials, or other causes unrelated to the Products (e.g. floor covering failure, excess point loading, overvoltage). This Limited Warranty excludes exterior applications and applications utilizing glass tile or other non-approved floor coverings, unless specifically approved in writing on a case by case basis by the Schluter Systems Technical Services Director.

This Limited Warranty is conditioned and will be considered null and void and Schluter Systems will have the right to refuse any claims if: (a) the Products have been improperly stored or installed, or (b) the Products are subject to abusive or abnormal use, lack of maintenance, or used in a manner other than that for which the Products were designed or in any way contrary to the Written Materials.

**DISCLAIMER:** There are no warranties beyond this expressed warranty as stated herein. To the extent permitted by law, all other warranties, representations or conditions, expressed or implied, are hereby disclaimed and excluded, including but not limited to the implied warranties of **MERCHANTABILITY** or **FITNESS FOR A PARTICULAR PURPOSE** (as limited to such purposes as described in the Written Materials) or arising from a course of dealing, usage of trade or otherwise by law. ANY IMPLIED WARRANTIES ARISING BY OPERATION OF LAW ARE LIMITED IN DURATION TO THE TERM OF THIS LIMITED WARRANTY. NO REPRESENTATION, PROMISE, AFFIRMATION OR STATEMENT BY ANY EMPLOYEE OR AGENT OF SCHLUTER SYSTEMS WILL BE ENFORCEABLE AGAINST SCHLUTER SYSTEMS UNLESS IT IS SPECIFICALLY INCLUDED IN THIS LIMITED WARRANTY OR AUTHORIZED IN WRITING BY THE SCHLUTER SYSTEMS TECHNICAL SERVICES DIRECTOR. This Limited Warranty is given in lieu of any other warranty, whether expressed or implied. The remedies contained herein are the only remedies available for breach of this Limited Warranty. This Limited Warranty extends only to the Owner and is not transferable or assignable unless authorized by written agreement and signed by the Schluter Systems Technical Services Director or otherwise prohibited by specific state or provincial law. This Limited Warranty gives you specific legal rights; some states and provinces do not allow disclaimers or other restrictions of implied warranties; some of the above disclaimers may not apply to you. **No changes or modifications of any terms or conditions of this Limited Warranty are permitted unless duly authorized in writing by the Schluter Systems Technical Services Director.** This Limited Warranty shall supersede and replace any and all prior oral or written warranties, agreements, or other representations made by or on behalf of Schluter Systems relative to the Products or the application of the Products and shall apply to any installation occurring on or after April 8, 2019. If the Products are used in conjunction with other Schluter products, a different Schluter warranty may apply. For the most current information and materials regarding Schluter Systems warranties and programs, please visit [https://www.schluter.com/schluter-us/en\\_US/downloadfiles](https://www.schluter.com/schluter-us/en_US/downloadfiles).

**MAKING A CLAIM:** To make a claim under this Limited Warranty, the Owner must provide Schluter Systems<sup>2</sup> with written notice within thirty (30) days of any alleged defect in the Products covered by this Limited Warranty, together with date and proof of purchase of such Products and/or all of its components and name and address of all installers and all invoices related to the original installation, failing which this Limited Warranty shall have no legal effect<sup>3</sup>. Schluter Systems reserves the right at its election and as a condition of this Limited Warranty to inspect the alleged failed and/or defective Products.

All U.S. Claims shall be sent to:

Schluter Systems L.P.  
Attn: Warranty Claims Dept.  
194 Pleasant Ridge Road  
Plattsburgh, NY 12901-5841

All Canadian Claims shall be sent to:

Schluter Systems (Canada), Inc.  
Attn: Warranty Claims Dept.  
21100 chemin Ste-Marie  
Ste-Anne-de-Bellevue, QC H9X 3Y8

<sup>1</sup> If there are any conflicting terms between any Written Materials, the most recently updated document shall be deemed to control.

<sup>2</sup> This Limited Warranty is limited to sales of the Products made in and intended for use in the United States and Canada. For the purposes of this Limited Warranty, Schluter Systems L.P. shall offer warranty coverage to Owners located in the United States, and Schluter Systems (Canada) Inc. shall offer warranty coverage to Owners located in Canada.

<sup>3</sup> In the event that Owner fails to provide such required invoices relating to the original installation, Schluter Systems shall pay Owner an amount equal to the average, reasonable costs of a comparable installation. If the parties fail to agree on such amount, such dispute shall promptly, and in the first instance, be submitted: (a) if a U.S. claim, to arbitration in Clinton County, New York, in accordance with the rules of the American Arbitration Association, or (b) if a Canadian claim, in the Province of Quebec, Canada, in accordance with the ADRIIC Arbitration Rules. Any outcome of such arbitration proceeding shall be final and binding upon the parties hereto.
